Uniform Crime Report Crime in the United States, 2015

In the FBI's Uniform Crime Reporting (UCR) Program, motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. In the UCR Program, a motor vehicle is a self-propelled vehicle that runs on land surfaces and not on rails. Examples of motor vehicles include sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, all-terrain vehicles, and snowmobiles. Motor vehicle theft does not include farm equipment, bulldozers, airplanes, construction equipment, or water craft such as motorboats, sailboats, houseboats, or jet skis. The taking of a motor vehicle for temporary use by persons having lawful access is excluded from this definition.

A PARTNERSHIP IN LAW ENFORCEMENT

PRINCE

EXECUTIVE SUMMARY

The Vehicle Theft Prevention Council (Council) is in its 21st year of service to the citizens of the State of Maryland. Council Programs have proven to be highly effective with a direct correlation to funding levels. From 1995 - 2000, Vehicle Theft Programs were fully funded and vehicle theft decreased 32%. From 2001 - 2004, funding levels were drastically reduced and vehicle theft increased 28%. Full funding levels were restored in 2005, with a corresponding decrease of 60% by 2015. Since the Council's inception in 1994, vehicle theft in Maryland has

decreased 64% in total numbers.

WASHINGTON REGION

Of significance, is the high level of vehicle thefts experienced in Prince George's County. Between 2001 -2004, vehicle theft increased 102% from 8,659 to 18,482. With enhanced funding in FY 2005 - FY 2015, vehicle theft prevention programs were restored in the County. By the end of 2015, vehicle theft had decreased 73% to a level of 3,431; vehicle thefts in the Washington Region decreased 67%.

awarded 20 grants in 2015...for a total of \$1,841,500.00.

The Council

approximately 40,000 Maryland motorists currently registered in the Program.

BALTIMORE REGION

The Council's most prominent success has been in the Baltimore Region. In 1994, 55% of all vehicle thefts in the state occurred in Baltimore City and Baltimore County. The Council's first funded Program was to assist in creating a multijurisdictional Task Force between the City and the County which has come to be known as the Baltimore Regional Auto Theft Team, or RATT. This proved to be highly successful; vehicle theft rates in Baltimore City and Baltimore County decreased 50% between 1995 - 2000, while vehicle theft in those areas has since decreased an average of 28%. The RATT concept was duplicated in the Washington Region in 2005 with similar results.

2015 COUNCIL INITIATIVES

In July 2015, the Council awarded 20 grants to a variety of organizations encompassing public awareness and prevention, law enforcement, prosecution, and juvenile intervention for a total of \$1,841,500. These grants were focused on the Baltimore/Washington Metropolitan Area where 93% of all vehicle thefts occur. Grants in the Baltimore Region were awarded to Baltimore City, Baltimore County, Anne Arundel County, Harford

> County, Howard County, and the City of Annapolis. Grant assistance in the Washington Region includes Prince George's, Montgomery, and Charles Counties.

> The Council continues to support and administer "Watch Your Car" which is a National Vehicle Theft Prevention Program. The Program is voluntary and allows police to stop vehicles displaying the special "Watch Your Car" decals between the hours of 1:00 a.m. and 5:00 a.m. There are

The Council also continues to partner with the MD-DC Anti-Car Theft Committee (ACT). ACT is the Council's private sector partner and provides free "VIN Etching" and other vehicle theft prevention services which supplement the Council's public awareness efforts.

CONCLUSION

Based upon funding levels, the Council has been successful in providing planning and fiscal resources to state, local jurisdictions, and community organizations whose effort, in turn, affected vehicle theft rates. Our goal is not only to continue to reverse the vehicle theft trend, but to continue to manage the problem in the future.

THE NATURE AND EXTENT OF VEHICLE THEFT IN MARYLAND

After four years of significant increase between 2000 - 2004, Maryland has experienced a 63% percent reduction in vehicle theft since 2003. In 1999, Maryland had a total of 26,063 vehicle thefts, a decrease of 32% over 1994. Total thefts rose to 36,406 in 2003 representing an increase of 10,339 stolen vehicles. In 2004, we saw a slight decrease of 545 stolen vehicles, or -1.5%. In 2015, thefts had decreased to 13,564, or a 63% decrease over 2003. In economic terms, this decrease is significant. Based on the \$7,001.00

UCR average price of a stolen vehicle, decreases in thefts since 2003 translates to an economic savings of \$159,916,842 to Maryland citizens.

THE NATURE OF VEHICLE THEFT

Vehicle theft is primarily a crime of opportunity. Victims often fail to employ even the most modest precautions to deter theft. Frequently, victims either do not lock the vehicle, leave the vehicle with the keys in the ignition, or occasionally, both. Several

surveys indicate that many cases of vehicle theft result from such carelessness. Surveys by the Baltimore Regional Auto Theft Team (RATT), continues to show that 25-30 percent of recovered stolen vehicles had the key in the car at the time of their recovery.

The Prince George's County Police Department findings: approximately 32% of criminal incident reports surveyed mentioned that the key was found in the recovered vehicle. The Montgomery County Police reported similar findings. Thus, the perpetrators often steal a vehicle with little effort.

PERPETRATORS

Auto theft can best be understood by the perpetrator's motivations. Thefts can be distributed into four distinct groups. In most cases, vehicles are stolen either for the resale or distribution of parts, for transportation purposes, for the commission of other crimes, or for exportation. Of these four factors, the greatest threats to Maryland

citizens are the destruction of vehicles for parts and exportation. The operation of "chop shops" and exportation allows for the complete destruction of vehicles often resulting in a total loss for the owner. In the other two instances (transportation purposes and the use of vehicles to commit other crimes) the destruction of the vehicle is generally not as certain and the large majority are recovered.

During 2015, 81% of the motor vehicle thefts were cars. 9% were trucks and buses, and 10% were

other motor vehicles. Motor vehicle thefts accounted for 9% of property crime and 8% of the crime index. There were 225.8 motor vehicle thefts per 100,000 population.

The 2015 Maryland UCR provided final arrest statistics for vehicle theft. In comparing 2014 to 2015 data, arrests for vehicle theft increased from 1,459 in 2014 to 1,533 in 2015. The perpetrators, according to the 2015 UCR, were 84% male and 16% female; with 27% being white, 72%

African American, and less than 1% Asian or American Indian. 43% of those arrested for vehicle theft were juveniles.

In 2015, 78% of reported stolen vehicles were recovered at a value of \$53,319,529.

LOCATION OF THEFT

Historical data indicates that vehicle thefts often occur in two distinct areas that conform to a time frame. In most circumstances, thefts occur either in residential areas in the late evening and early morning hours, or in commercial areas in the midday hours. In both cases, the perpetrators easily elude observation.

RECOVERY & VEHICLE THEFT

Often, the location of the recovery provides law enforcement officials with valuable information on the nature of the crime. In rural areas, vehicles are often abandoned in fields. Vehicles left in suburban and urban areas generally are found on the street, as if parked. In 2015, 78% of reported stolen vehicles were recovered at a value of \$53,319,529.

2015 ANNUAL REPORT

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

This rather substantial recovery rate suggests that most vehicle theft instances are related either to transportation purposes or to the use of a vehicle to commit other crimes.

TYPES OF VEHICLES STOLEN

Although vehicle theft is primarily a crime of opportunity, perpetrators often favor particular makes and models. The following list ranks, according to information received by the Maryland Vehicle Theft Prevention Council, the ten most common vehicles stolen in the area of occurrence.

Top 10 Stolen Vehicles in Maryland:

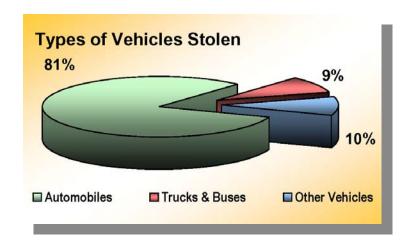

-		
1.	Dodge Caravan	2003
2.	Honda Accord	2008
3.	Toyota Camry	2014
4.	Honda Civic	2012
5.	Ford Pickup (Full Size)	2004
6.	Nissan Altima	2013
7.	Toyota Corolla	2014
8.	Jeep Cherokee/Grand Cherokee	2015
9.	Chevrolet Pickup (Full Size)	1999
10.	Hyundai Sonata	2013

Top 10 Stolen Nationwide:

-		
1.	Honda Accord	52,244
2.	Honda Civic	49,430
3.	Ford Pickup (Full Size)	29,396
4.	Chevrolet Pickup (Full Size)	27,771
5.	Toyota Camry	15,446
6.	Dodge Pickup (Full Size)	11,212
7.	Toyota Corolla	10,547
8.	Nissan Altima	10,374
9.	Dodge Caravan	9,798
10.	Chevrolet Impala	9,225

MOTOR VEHICLE ROBBERY

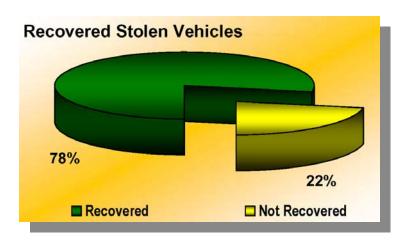

In 2015, there were 524 carjackings, a 49.7% increase from the 350 reported in 2014, and the 330 reported in 2013. It has previously been hypothesized that, as public awareness programs increase and anti-theft devices become more popular, carjackings would also increase. However, recent data does not support this hypothesis. From 1994 - 2000, vehicle theft decreased 36% and carjacking decreased 44%. From 2005 - 2014, vehicle theft decreased 61% and carjacking decreased 55%. The nature of vehicle theft and vehicle robbery differ drastically. Whereas vehicle theft is a crime of opportunity, vehicle robbery presents the perpetrator with intense personal involvement with the victim. In 2015, vehicle theft increased 3% and carjacking increased 49.7% over the previous year.

Consumer Reports

Driver error is to blame in 40% to 50% of vehicle thefts.

(keys in vehicle / windows down / doors unlocked)

2015 ANNUAL REPORT

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

THE EXTENT OF VEHICLE THEFT

The Baltimore Region has seen decreases in vehicle theft since 1994 levels. The most dramatic decreases can be seen in Baltimore County, Baltimore City and Howard County. These three areas had decreases of 72, 59 and 82 percent, respectively, since the intervention of the Council in 1994. In addition, as part of the Baltimore Metro area, Anne Arundel County has experienced a 65% decrease, while Harford County has decreased 73%.

The Washington Region has seen similar success since 1994 with Montgomery County experiencing a 77% decrease, Charles County decreasing 52% and Prince George's County seeing a decrease of 64%.

Most non-urban regions of the state experienced decreases in vehicle theft since the inception of the council. The Western Region (Allegany, Carroll, Frederick, Garrett, and Washington Counties) was no exception, with a decrease of 42%. The Eastern Shore Region (Caroline, Cecil, Dorchester, Kent, Queen Anne's, Somerset, Talbot, Wicomico, and Worcester Counties) reported a decrease of 50%. The Southern Region (Calvert, Charles, and St. Mary's Counties) reported a decrease of 43%. Of note is a 77% decline in Worcester County, a 74% decline in Talbot County, and a 72% decline in Garrett County. Also noteworthy is a 9% increase in Dorchester County.

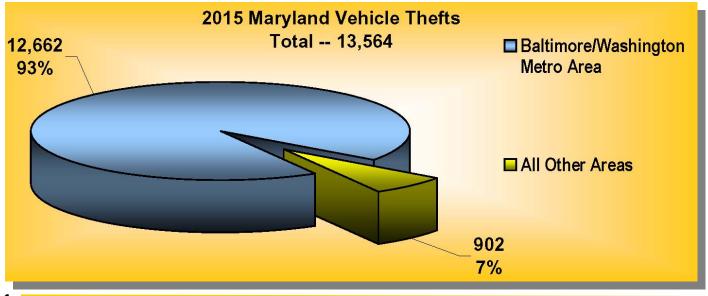

COMPARISON WITH OTHER CRIMES

The trends in vehicle theft during 2015 can be compared to other forms of crime. On the whole, crime in Maryland decreased 3% over 2014. For 2015, the vehicle theft rate in Maryland has increased 3.1%. Since the Council's first programs were implemented in 1994, the motor vehicle theft rate has declined 70.4 percent (per 100,000 population.). The most significant decline in crime since 1994 has been motor vehicle theft, where the rate in Maryland has declined 64%.

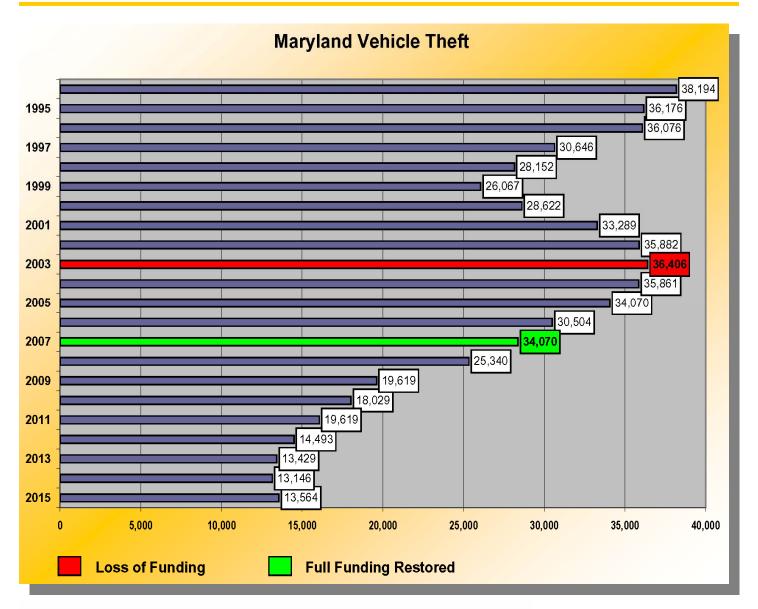

CONCLUSION

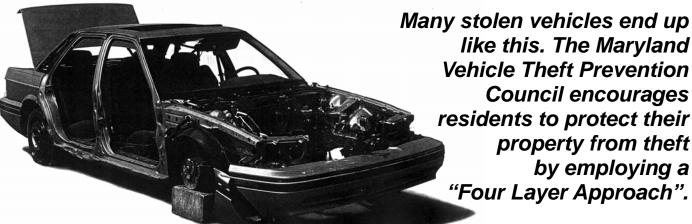

Vehicle theft continues to be a problem for Maryland. Research has shown that vehicle thefts are committed in concert with other related crimes. As vehicle thefts decline, the opportunity to commit other related crimes also decreases.

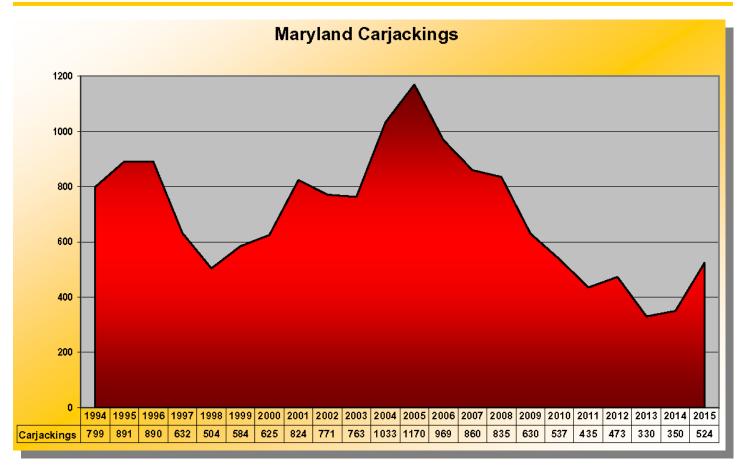

Carjackers look for the right opportunity.

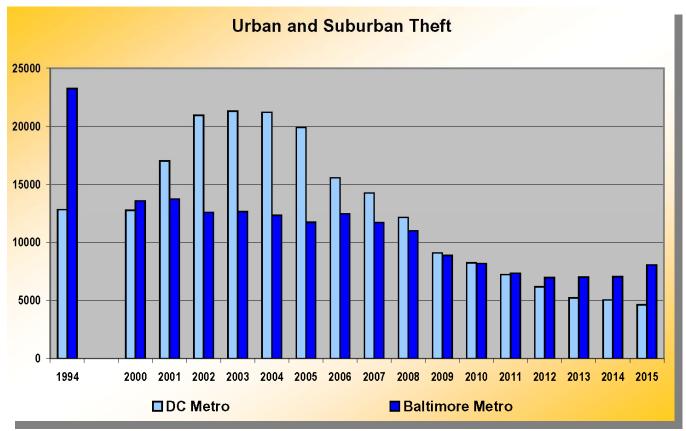

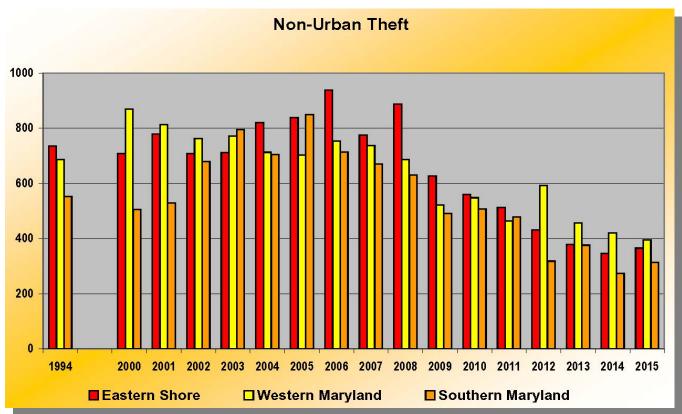

Generally, carjackers look for drivers slowing down, stopping, or getting into or out of their vehicle.

That is why carjacking often occurs in parking lots and garages, at stop lights and signs and by the side of the road.

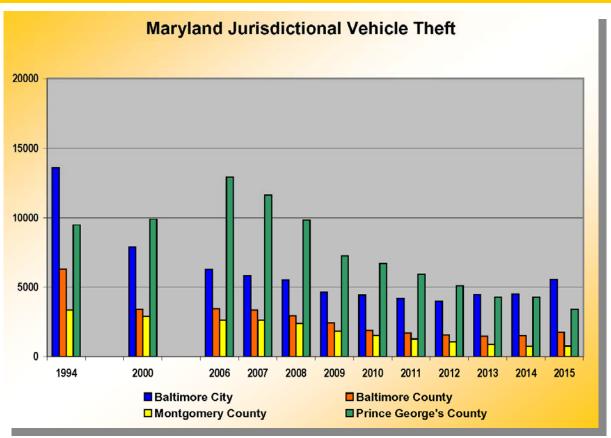

If you encounter a carjacker, surrender the vehicle without a fight. Carjacking is a serious and very dangerous situation. You can replace a car, but the life of every Maryland resident is precious.

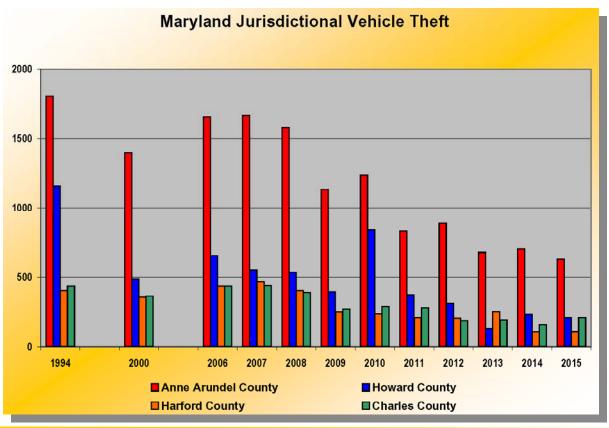

STATEWIDE VEHICLE THEFT STRATEGIES

FOUR PART APPROACH

The Council has embraced a four-part programmatic approach based on efforts in other states which have proven effective in the prevention of vehicle theft.

PREVENTION / EDUCATION

Statistics estimate that in three out of four cases of auto theft, owners left the doors unlocked. In one out of four cases, keys were left in the ignition. Without prevention efforts and public support, law enforcement alone cannot effectively prevent vehicle thefts in Maryland.

Public education campaigns and prevention training programs can increase individual awareness of the cost of vehicle theft, provide tips for vehicle owners to prevent thefts, and demonstrate the savings that preventative measures yield. The Council encourages prevention programs that promote public awareness and provide public training in the preventative measures.

The Council encourages prevention programs that promote public awareness and provide public training in the preventative measures.

In an effort to assure maximum effectiveness and statewide coverage of a prevention campaign, the Council encourages programs covering multiple jurisdictions. Partnerships promoting vehicle theft prevention programs between local law enforcement agencies and community organizations are strongly promoted. All law enforcement grants are required to have a prevention component.

DETECTION AND APPREHENSION

The Council encourages detection and apprehension programs by specifically allocating funds to law enforcement agencies. Vehicle theft detection and apprehension programs include community involvement programs, detection training programs, and enhancements to information-gathering programs. Vehicle theft often transcends jurisdictional boundaries; the Council, therefore, encourages law enforcement efforts covering multiple jurisdictional boundaries. An example of this is multi-agency vehicle theft

enforcement teams. Multi-jurisdictional efforts may include municipalities, counties, regions, and community organizations.

PROSECUTION & CONVICTION

Prosecution and conviction of automobile thieves is one of the most important means of breaking vehicle theft rings and reducing the economic incentives of vehicle theft.

In the past, the prosecution of vehicle theft cases

had a relatively low priority at both local and state levels because of four factors: staffs were limited and consumed with prosecution of violent crimes, vehicle theft is a property crime as opposed to a personal crime, victims receive insurance compensation, and vehicle theft prosecutions are complex and expensive in comparison to resultant penalties. A special prosecutor to handle vehicle theft cases through both district and circuit courts is an effective method in achieving convictions.

The Council encourages prosecution and judicial programs designed to assist with the prosecution of persons charged with vehicle theft offenses, as well as efforts to implement legislative changes that facilitate the prosecution of vehicle thieves and forfeiture of their property.

JUVENILE INTERVENTION

Because of the large percentage of juveniles involved in auto theft, the Council dedicates a percentage of funds to juvenile service agencies to develop programmatic initiatives with specific vehicle theft offense components. The funds will also be used to improve data collection to enhance research and analysis capabilities of juveniles involved in vehicle theft and related offenses. Schools may be an effective setting for presenting special vehicle theft programs to large groups of young people. Current study data indicates a need to influence juveniles in both middle and high schools about the consequences of vehicle theft.

THE COUNCIL'S IMPACT ON PREVENTING VEHICLE THEFT

Since its inception, the Maryland Vehicle Theft Prevention Council has been effective in its efforts to combat vehicle theft throughout the State of Maryland. The combination of public awareness, prevention, and education has played an integral role in the decline in vehicle theft. By continuing to fund the council, this multi-faceted approach can continue to be applied and provide untold benefits towards the continued reduction of auto theft statewide.

ANTI-CAR THEFT COMMITTEE

In 1997, the Council organized the Maryland Anti-Car Theft Committee (ACT) as a public/private partnership between the Council, automobile insurance carriers, and other vehicle related organizations.

The ACT Committee has been formally incorporated in Maryland as a 501(c3) nonprofit tax exempt organization. The primary function of the ACT. Committee is to organize and fund various public awareness /education/prevention programs throughout Maryland, thereby enhancing and broadening the base of the Council's efforts. The Council continues to partnership with the ACT Committee. ACT is proposing to continue their statewide VIN etching campaign. This is a process where the vehicle's identification number (VIN) is etched into the vehicle's windows. VIN etching is known as an excellent form of vehicle theft deterrence and is offered as a "Free Service" by the ACT Committee.

In 2000, ACT expanded its area of responsibility to include the District of Columbia, becoming the MD-DC ACT Committee. The ACT Committee has also provided funding to the Montgomery County Police Centralized Auto Theft Team (CATT) to enhance their capabilities to access stolen car information more rapidly through portable lap top computers. They also partner with the Baltimore Regional Auto Theft Team (RATT) and provided funding to assist the startup of the Washington Area Vehicle Enforcement Team (WAVE) and assist community policing programs in the District of Columbia.

"WATCH YOUR CAR"

In October 1997, Maryland was awarded a Department of Justice, Bureau of Justice Assistance grant to launch the national "Watch Your Car" program. Maryland was one of the first seven states to be at the forefront of this national vehicle theft prevention program. The "Watch Your Car" initiative allows motor vehicle owners to voluntarily display a reflective decal on their vehicles to alert police that the vehicle is not normally driven between the hours of 1 a.m. and 5 a.m. If the vehicle is observed being operated during these hours, the owner has consented to having the vehicle stopped by police anywhere in the United States. Police can then ensure that the vehicle is not stolen.

This program is totally voluntary and at no cost to the participants. Similar decal programs throughout the country have proven successful. In the past, however, a lack of uniformity in program hours and decal designs has limited its effectiveness. The national "Watch Your Car" program will remedy these problems; it brings uniformity to the concept.

Police officers
nationwide will
come to recognize
and understand the
parameters and
benefits of the
"Watch Your Car"
program so that it
will not be limited by
state and local
boundaries.

This program was

officially implemented in August of 1998. Currently, there are approximately 40,000 Maryland motorists registered in the program with 78 law enforcement agencies participating statewide. In 2000, the Council applied for, and received, "Watch Your Car" Supplemental Funding of \$240,000.00. This continued the program through 2003. The Council has since assumed funding responsibilities to continue this valuable program.

COUNCIL WEBSITE www.mdautotheft.org

In furtherance of the Council's progressive actions, a website was developed and went online in January 2000. The website is directed at providing vehicle theft prevention data and an interactive link to the public and numerous other vehicle theft prevention organizations nationwide

VEHICLE THEFT FACTS AND TIPS

Did you know?

- In 2015, there were 13,564 motor vehicles stolen in Maryland.
- A vehicle theft occurs every 39 minutes in Maryland.
- In approximately 50 percent of the vehicles stolen, keys were left in the vehicles.
- It is estimated that 60 percent of the vehicles stolen were not locked.
- 1,533 individuals were arrested for vehicle theft in 2015.
- Juveniles represented 43% of the arrests for vehicle theft in Maryland.
- Approximately 25 to 40 percent of the cost of comprehensive auto insurance is due to auto theft.
- National surveys reveal that 33% of drivers left their car while it was running.
- Driver error is to blame in 40 to 50 percent of vehicle thefts (keys in ignition, windows down, unlocked doors).

Protect yourself and your car!

- You hold the key! Lock your car and take the key.
- Use anti-theft devices such as alarms, kill switches, steering wheel and brake locking devices, or recovery systems.
- Park in well lighted and heavily traveled areas.
- Park with wheels turned toward the curb.
- Lock vehicle doors upon entering.
- Do not hide spare keys in or under the vehicle, they can be easily found.
- Never leave vehicle registration card, driver's license, or any type of owner identification in the glove box.
- Don't leave valuables in sight within the car...

...and, Join the Maryland "Watch Your Car" Program

THE YEAR IN PICTURES

"IMPACT thanks the Maryland Vehicle Theft prevention Council for their support. MVTPC funds allow us to sponsor an annual advanced Vehicle Identifiers School. Detectives from multiple jurisdictions along with National Insurance Crime Bureau Special Agents shown in these photos are working to cataloging valuable information on new model year cars and trucks at the Washington DC New car show. This information is used in the fight against the growing trend of Vehicle Identification Number (VIN) switching, vehicle cloning and salvage fraud. Now employed by organized crime to steal high dollar vehicles and sell those vehicle to the unsuspecting public. These theft techniques are part of the 'new face of auto theft' that challenges the law enforcement and insurance community. This type of training is not provided in the Mid-Atlantic region by any other group or school."

"With the support of the Vehicle Theft Prevention Council, C-PAC has disseminated information and educated the local community on the importance of prevention through our quarterly parent meetings and public events. We have also established relationships with municipal police departments in Prince George's County."

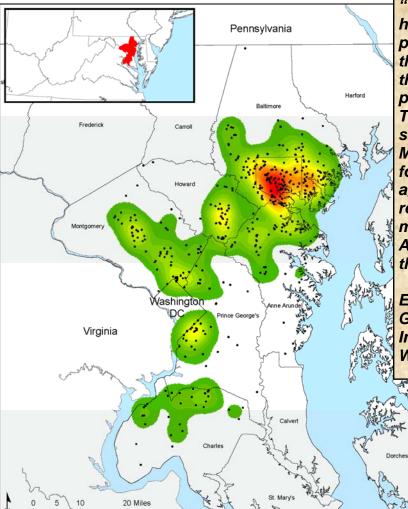

Phil Lee Executive Director C-PAC

"The Montgomery County Department of Police Centralized Auto Theft Section has been a partner with the Maryland Vehicle Theft Council since 1995. This collaboration has allowed our unit the ability to provide both prevention and investigative services to the residents of Montgomery County and other counties in Maryland. This collaboration has also resulted in the recovery of many stolen vehicles over the years and the successful prosecution of the offenders that commit these acts. We look forward to many more years as partners with the Council."

Sergeant M. Fergus Sugrue Montgomery County Department of Police Centralized Auto Theft Section

"The Washington College GIS Program has continued to work with the VTPC to provide mapping and analysis of vehicle theft and recovery locations throughout the state of Maryland, in addition to providing other products on-demand. This data is collected and formatted to be shared via the Maryland Offender Management System (MOMS), as well as for use in customized products upon agency request. An example of a more recent on-demand request was for the mapping and analysis of motorcycle, ATV, and scooter thefts over time throughout Maryland."

Erica McMaster
GIS Operations Manager
Interim GIS Program Coordinator
Washington College

2015ANNUAL REPORT

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

"The biggest challenge in auto theft this year has been to educate the public that yes, it can happen in your neighborhood, and you must always be vigilant in securing your vehicle every night.

While key-less entry has eliminated 'popping' ignitions, many people don't realize that thieves have adapted to this, and seek out vehicles whose owners leave key fobs in their vehicles overnight, or in many cases whose spouse/roommate has their spare key in their car parked nearby allowing the thief to simply push a button and drive away.

Leaving your car running in the morning to warm up is an invitation to having your car stolen. It is one of our biggest problems and challenges. We really want to get this message to the public."

2015 ANNUAL REPORT

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

"The annual grant funding provided by the council is crucial to Anne Arundel County every year as it allows us to provide the best available tools for our detectives in the field. For instance, this year the VTPC provided the funding to equip an auto theft detective with portable LPR technology--a tool that greatly enhances the capability of locating and recovering stolen vehicles. I had been trying for years to figure out a way to purchase this valuable tool and the VTPC helped make it happen!"

2015 ANNUAL REPORT

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

Pride in Police Work

During the International Association of Chiefs of Police (IACP) Convention in October of 2016, Sgt. David Mohr (left) and Lt. Matthew Meterko (right) of the Prince George's County Police Department and The Washington Area Vehicle Enforcement (WAVE) Auto Theft Task Force accepted the 2016 IACP Vehicle Crimes Award of Merit on behalf of the WAVE Task Force.

The award was bestowed upon WAVE in acknowledgement of the work that the Task Force undertook during the 2015 calendar year.

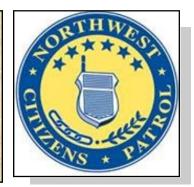

Below is a brief synopsis of the citation associated with the award:

"During calendar year 2015, the WAVE Task Force made 295 full custody arrests, served 75 arrest warrants, and obtained 64 felony warrants. The team executed 59 search warrants that yielded the recovery of 17 firearms, \$4,421 in cash and 3,875 grams of illegal narcotics. The team recovered a total of 587 vehicles with an overall value of \$9,535,990.00. Compared to 2014, the unit saw a 94% increase in arrests, a 20% increase in recoveries and a 38% increase in value of recoveries. More importantly, Prince George's County had 709 fewer cars stolen in 2015 (2,949) than in 2014 (3,658). This was a 19% reduction in auto theft for the year."

Photo Courtesy of Sgt. David Mohr

"The crime-fighting efforts of the Vehicle Theft Prevention Council have brought the focus of the community members towards preventing car theft, i.e., not leaving unattended cars running, using anti-car theft devices when the car is parked, and, in general, heightened awareness of car theft prevention."

Neil Schachter President, Northwest Citizens Patrol

Two of the MVA's main legislative mandates is to license drivers and register vehicles. In Fiscal Year 2015, the MVA recorded approximately one million car sales and the total number of registered vehicles increased from its FY 2014 level of 4.9 million to 5 million. A small percentage of these vehicles were registered using fraudulent and/or counterfeit titles and documentation.

In November of 2010, investigators from the Maryland Regional Auto Theft Task Force (RATT) began performing post-transaction inspections of the out-of-state documentation used to re-title and register vehicles in Maryland. By April 2012, the investigators had identified approximately 255 vehicles that were re-titled in Maryland using altered or counterfeit out-of-state titles, one of which was stolen from a dealership in Idaho. Due to the initial success of the RATT investigators, the MVA hired retired Baltimore County Police Detective, and Auto Theft Expert, William Banahan to begin inspecting the out-of-state titles on a regular basis.

From November of 2012 through March of 2015, MVA Investigator Banahan inspected approximately 972,945 out-of-state titles. He identified approximately 1,011 counterfeit or altered titles and 1,263 titles where the salvage brand had been "washed" or omitted from the Maryland title. The identified vehicles retitled in Maryland using altered or counterfeit titles have either been reported stolen and re-plated with a phony or cloned VIN or are evidence in some other form of fraud (i.e. odometer fraud, lien fraud, leasing theft, salvage titles, or parts only titles). The majority of the vehicles that have been re-titled in Maryland are model year 2009 or newer, with some vehicles being valued at close to \$80,000. The identified vehicles have been referred to law enforcement for follow-up investigation to determine if they are stolen, or evidence of some other type of fraud.

(continued on next page)

Bins of foreign and out-of-state titles waiting to be examined. Each bin holds approximately 2,500 titles.

2015

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

The Maryland Vehicle Theft Prevention Council recognized the success of Investigator Banahan's efforts and provided funding to the MVA to hire an additional investigator to assist him in examining the out-of- state titles for authenticity and alterations. The additional investigator is Raymond McTamany, who is also a retired Baltimore County Police Detective and former member of RATT. Also, with the hiring of Investigator McTamany, the investigators have been able to provide MVA employees and tag and title owners with training on how to defect fraudulent titles BEFORE the titles are accepted. For the period of October 2012 through June of 2016, Investigators Banahan and McTamany have examined a combined 1,137,485 titles. The results of their examinations are detailed in the table below:

The document examination device magnifies and illuminates the questionable title for an in depth examination

Overall Total October 2012 Through June 2016

Titles Examined: 1,137,485

Counterfeit/Altered Titles Identified: 1,142

Salvage Title/Certificates

Without MSP Salvage Inspection: 1,400 Training Sessions: 15

Several times a month, MVA Investigators William Banahan and Raymond McTamany retrieve bins of out-of-state titles that normally would have been shredded, but are separated for further examination. The MVA Investigators can usually detect a counterfeit document just by touching and looking at it with the naked eye. Some documents require a forensic document examination device to find the alterations and/or defects. The vehicles connected to the fraudulent documents are referred to law enforcement for follow-up investigation to determine if they are stolen, or evidence of some other type of fraud.

After the titles are examined, Investigator McTamany returns the legitimate titles for destruction

Photos & Text Courtesy of Eric Danz, Manager, MDOT, Maryland Motor Vehicle Administration Division of Investigations and Internal Affairs

"Being able to provide young people who steal cars for the first time with an opportunity to learn from their mistakes by meeting with the victims, and allowing them to work out their own resolutions, is not only helpful for the young offender but for the victims and community as well. Re-offending is reduced by 80%, victims actually feel that

justice was served, and the state is saved thousands of dollars with each resolved case. What an amazing way to curb juvenile auto theft. On behalf of the dozens of young offenders and hundreds of victims of auto theft who have been helped by this Restorative Justice program, we thank you."

Lauren Abramson, Ph.D.

Summary of Grant Recipients for Fiscal Year 2016

Law Enforcement

Annapolis Police Department Auto Larceny Education Reduces Thefts

A highly motivated public education and awareness program directed at preventing and deterring vehicle theft and theft from vehicles.

FY 2016 Award: \$20,500

Anne Arundel County Police Department

Vehicle Theft Investigation, Prevention, Education, and Recovery (VIPER)

A comprehensive vehicle theft investigation, prevention, education, and recovery project to effectively reduce the serious vehicle theft activity in the county.

FY 2016 Award: \$60,000

Baltimore County Police Department (RATT)

Cracking Down on Auto Theft

Provides vehicle theft prevention and educational training, identifies repeat offenders, enhances prosecution, and establishes a multi-jurisdictional vehicle theft investigative task force with the **Baltimore City Police Department** and the Maryland State Police.

FY 2016 Award: \$350.000

Award includes both Auto Theft Reduction through Crime Analysis and Cracking Down on Auto Theft programs.

Charles County Sheriff's Office Vehicle Theft Project

Provides for a dedicated vehicle theft investigator, vehicle theft investigative training, and aggressive community prevention and education program.

FY 2016 Award: \$20,000

Department of Maryland State Police

Theft Reduction, Enforcement & Support

Provision of vehicle theft investigation and technical assistance to local law enforcement agencies, statewide vehicle theft enforcement program.

FY 2016 Award: \$150,000

Harford County Sheriff's Office Theft Reduction, Enforcement & Support

A comprehensive vehicle theft investigation, prevention, education, and recovery project to effectively reduce the serious vehicle theft activity in the county.

FY 2016 Award: \$25,000

Howard County Department of Police

Howard County Interagency Collaboration on Vehicle Theft Reduction

The formation of an interagency team dedicated to vehicle theft reduction by maximizing prevention, investigation, and prosecution efforts.

FY 2016 Award: \$162,000

Maryland Motor Vehicle Administration (MVA)

Stolen & Uninsured Vehicle Initiative

Target vehicle theft through the use of technology and relationships with established auto theft units.

FY 2016 Award: \$96,000

Montgomery County Police Department

Vehicle Theft Enforcement and Prevention Project

Implements a task-force approach to vehicle theft by creating a centralized vehicle theft investigative unit, encouraging prevention through public education, and proving crime analysis. This grant also provides for a Montgomery County Prosecutor's Office to directly assist police efforts.

FY 2016 Award: \$165,000

Prince George's County Police Department - WAVE Team Vehicle Theft Prevention Initiative

Comprehensive program directed at law enforcement, support and participation in the Washington Area Vehicle Enforcement Team: Analyze stolen and recovered vehicle theft data, public information campaign directed at empowering the role of citizens through "Lockit & Pocket", a Community Prevention Program and enhanced cooperation with prosecutor.

FY 2016 Award: \$300,000

Summary of Grant Recipients for Fiscal Year 2016

Prosecution

Baltimore City State's Attorney's Office

ACARS Conquering Auto Theft Recidivism Soon

Computer tracking and analysis of case prosecution of juvenile vehicle theft offenders and direct support to police efforts.

FY 2016 Award: \$50,000

Baltimore County State's Attornev's Office

A Comprehensive Enforcement and Prosecution Project

Intensive prosecution of repeat vehicle theft offenders and direct support to police efforts.

FY 2016 Award: \$115,000

Prince George's County State's Attorney's Office

Aggressive Auto Theft Prosecution: Applying Resources and Getting Results

Program directed at aggressive prosecution to improve conviction rates for adults and juveniles charged with vehicle theft and to get higher sentencing for convicted offenders.

FY 2016 Award: \$90.000

Juvenile

Community Conferencing Center

Building Community Conferencing as an Effective Intervention for Juvenile Theft

Unique community justice intervention that includes victims, offenders, and their respective supporters in deciding how to best resolve the incident. Project targets young people who steal cars for the first time. Community conferencing helps offenders to understand the impact of their behavior which has shown to decrease the likelihood that it will happen again.

FY 2016 Award: \$20,000

Community Prevention

Maryland Community Crime Prevention Institute

Vehicle Theft Prevention Public Awareness Support

Supports the Vehicle Theft Prevention Council's public awareness campaign through the operation of the toll free hotline (1-800-96-THEFT) and distribution of brochures and other educational materials.

FY 2016 Award: \$22,000

Northwest Citizens Patrol

Vehicle Theft Prevention Project Promotes education and crime prevention by focusing on both offenders and vehicle owners. Tactics include educating vehicle owners through marketing and community seminars and deterring offenders through aggressive cooperation with prosecutors and delaying parole of offenders.

FY 2016 Award: \$30,000

Olde Mill Foundation

Auto Theft/Prevention/ **Education and Information** Initiative

Vehicle theft prevention program at the grassroots community level. Coordination with community police officers and iuvenile intervention prior to the offense.

FY 2016 Award: \$20,000

Community Conferencing Center

Public Awareness

Vehicle Theft Prevention Council

Public Awareness Campaign Promotes action to lower rates of auto theft statewide by establishing the best possible media themes and methods to increase public awareness and to educate citizens in vehicle theft prevention measures.

FY 2016 Award: \$34,000

Miscellaneous

Industry Merged with Police Against Car Theft (IMPACT)

Provides Basic, Advanced and Certification Training for Law Enforcement and Auto Insurance Special Investigation Units

FY 2016 Award: \$37,000

Washington College

Collect, analyze, and map data to better understand and develop strategies to reduce vehicle theft in Maryland.

FY 2016 Award: \$75,000

VEHICLE THEFT ON THE ROAD

Pictured below left is the Vehicle Theft Prevention Display and information booth maintained by the Maryland Community Crime Prevention Institute on display during the 37th Annual Governor's Crime Prevention Awards Ceremony, held on December 13, 2016 at the La Fontaine Bleue Hotel in Glen Burnie.

Award winners, guests and dignitaries from across the state attended the event.

The video monitor on the display presents repeating messages about vehicle theft prevention as well as, PowerPoint slides, and other timely information.

Claude Nelson MCCPI Manager & State **DARE Coordinator** Department of Public Safety and Correctional Services Maryland Police and 🖊 📥 🌬 Correctional Training Commissions

The key to preventing vehicle theft *is* in *your* hands.

Lock your car.
Take the key.
Use an anti-theft device.
Participate in the Maryland
"Watch Your Car" Program.
