## **Uniform Crime Report** ***Crime in the United States***

In the FBI's Uniform Crime Reporting (UCR) Program, motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. In the UCR Program, a motor vehicle is a self-propelled vehicle that runs on land surfaces and not on rails. Examples of motor vehicles include sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, all-terrain vehicles, and snowmobiles. Motor vehicle theft does not include farm equipment, bulldozers, airplanes, construction equipment, or water craft such as motorboats, sailboats, houseboats, or jet skis. The taking of a motor vehicle for temporary use by persons having lawful access is excluded from this definition.

### COUNCIL MEMBERS

The Vehicle Theft Prevention Council consists of thirteen members appointed by the Governor. The Council includes representatives of law enforcement, prosecutors' offices, automobile insurers, state government, and the general public.

#### EX OFFICIO MEMBERS

**Colonel William Pallozzi**

Secretary, Department of State Police  
Chair

**Sam J. Abed**

Secretary, Department of Juvenile Services

**Robert L. Green**

Secretary, Department of Public Safety &  
Correctional Services

**Christine Nizer**

Administrator, Motor Vehicle Administration

#### COUNCIL STAFF MEMBERS

**Christopher T. McDonold**

Executive Director

**Gregory M. Shipley**

Director  
Department of State Police  
Office of Media Communications

**Elena Russo**

Deputy Director  
Department of State Police  
Office of Media Communications

#### REGULAR MEMBERS

**James V. Aluisi**

Community Representative  
Anne Arundel County

**Neil Schachter**

Community Representative  
Baltimore County/Baltimore City

**Thomas P. Reich**

National Insurance Crime Bureau (NCIB)

**Victor E. Epps**

Nationwide Insurance Company, Foreign  
Insurance Carrier Representative

**Hon. Scott D. Shellenberger**

State's Attorney for Baltimore County

**Martin A. Hammond III**

Representative  
Office of the Governor

**Phillip V. Lee**

Community Representative  
Prince George's County

**Larry E. Hinton**

Government Employees Insurance Company

**Chief Henry P. Stawinski III**

Prince George's County Police Department

# A PARTNERSHIP IN LAW ENFORCEMENT

### EXECUTIVE SUMMARY

The Vehicle Theft Prevention Council (Council) is in its 24th year of service to the citizens of the State of Maryland. Council Programs have proven to be highly effective with a direct correlation to funding levels. From 1995 - 2000, Vehicle Theft Programs were fully funded and vehicle theft decreased 32%. From 2001 - 2004, funding levels were drastically reduced and vehicle theft increased 28%. Full funding levels were restored in 2005, with a corresponding decrease of 60% by 2018. Since the Council's inception in 1994, vehicle theft in Maryland has decreased 65% in total numbers.

#### WASHINGTON REGION

Of significance, is the high level of vehicle thefts experienced in Prince George's County. Between 2001 - 2004, vehicle theft increased 102% from 8,659 to 18,482. With enhanced funding in FY 2005 - FY 2018, vehicle theft prevention programs were restored in the County. By the end of 2018, vehicle theft had decreased 69% to a level of 3,982 vehicle thefts in the Washington Region.

#### BALTIMORE REGION

The Council's most prominent success has been in the Baltimore Region. In 1994, 52% of all vehicle thefts in the state occurred in Baltimore City and Baltimore County. The Council's first funded Program was to assist in creating a multi-jurisdictional Task Force between the City and the County which has come to be known as the Baltimore Regional Auto Theft Team, or RATT. This proved to be highly successful; vehicle theft rates in Baltimore City and Baltimore County decreased 50% between 1995 - 2000, while vehicle theft in those areas has since decreased an average of 38%. The RATT concept was duplicated in the Washington Region in 2005 with similar results.

#### 2018 COUNCIL INITIATIVES

In July 2018, the Council awarded 20 grants to a variety of organizations encompassing public awareness and prevention, law enforcement, prosecution, and juvenile intervention for a total of \$1,869,000.00. These grants were focused on the Baltimore/Washington Metropolitan Area where 92% of all vehicle thefts occur. Grants in the Baltimore Region were awarded to Baltimore City, Baltimore County, Anne Arundel County, Harford County, Howard County, and the City of Annapolis. Grant assistance in the Washington Region includes Prince George's, Montgomery, and Charles Counties.

The Council continues to support and administer "Watch Your Car" which is a National Vehicle Theft Prevention Program. The Program is voluntary and allows police to stop vehicles displaying the special "Watch Your Car" decals between the hours of 1:00 a.m. and 5:00 a.m. There are approximately 40,000 Maryland motorists currently registered in the Program.

The Council also continues to partner with the MD-DC Anti-Car Theft Committee (ACT). ACT is the Council's private sector partner and provides free "VIN Etching" and other vehicle theft prevention services which supplement the Council's public awareness efforts.

#### CONCLUSION

Based upon funding levels, the Council has been successful in providing planning and fiscal resources to state, local jurisdictions, and community organizations whose effort, in turn, affected vehicle theft rates. Our goal is not only to continue to reverse the vehicle theft trend, but to continue to manage the problem in the future.

### THE NATURE AND EXTENT OF VEHICLE THEFT IN MARYLAND

After four years of significant increase between 2000 - 2004, Maryland has experienced a 63% percent reduction in vehicle theft since 2003. In 1999, Maryland had a total of 26,063 vehicle thefts, a decrease of 32% over 1994. Total thefts rose to 36,406 in 2003 representing an increase of 10,339 stolen vehicles. In 2004, we saw a slight decrease of 545 stolen vehicles, or -1.5%. In 2017, thefts had decreased to 13,553, or a 63% decrease over 2003. In economic terms, this decrease is significant. Based on the \$7,680.00 UCR average price of a stolen vehicle\*, decreases in thefts since 1994 translates to an economic savings of \$189,932,828 to Maryland citizens.

#### THE NATURE OF VEHICLE THEFT

Vehicle theft is primarily a crime of opportunity. Victims often fail to employ even the most modest precautions to deter theft. Frequently, victims either do not lock the vehicle, leave the vehicle with the keys in the ignition, or occasionally, both. Several surveys indicate that many cases of vehicle theft result from such carelessness. Surveys by the Baltimore Regional Auto Theft Team (RATT), continues to show that about 50% of recovered stolen vehicles had the key in the car at the time of their recovery.

The Prince George's County Police Department findings: approximately 32% of criminal incident reports surveyed mentioned that the key was found in the recovered vehicle. The Montgomery County Police reported similar findings. Thus, the perpetrators often steal a vehicle with little effort.

#### PERPETRATORS

Auto theft can best be understood by the perpetrator's motivations. Theft can be distributed into four distinct groups. In most cases, vehicles are stolen either for the resale or distribution of parts, for transportation purposes, for the commission of other crimes, or for exportation. Of these four factors, the greatest threats to Maryland citizens are the destruction of vehicles for parts and exportation. The operation of "chop shops"

and exportation allows for the complete destruction of vehicles often resulting in a total loss for the owner. In the other two instances (transportation purposes and the use of vehicles to commit other crimes) the destruction of the vehicle is generally not as certain and the large majority are recovered.

During 2017, 84% of the motor vehicle thefts were cars, 5% were trucks and buses, and 11% were other motor vehicles. Motor vehicle thefts accounted for 10% of property crime and 8% of the crime index. There were 224 motor vehicle thefts per 100,000 population.

---

***Decreases in thefts since '94 translates to an economic savings of \$189,932,828.00***

The 2017 Maryland UCR provided final arrest statistics for vehicle theft. In comparing 2016 to 2017 data, arrests for vehicle theft decreased from 1,659 in 2016 to 1,951 in 2017. The perpetrators, according to the 2017 UCR, were 79% male and 21% female; with 27% being white, 72% African American, 1% American Indian, Asian, and Pacific Islander. 35% of those arrested for vehicle theft were juveniles.

#### LOCATION OF THEFT

Historical data indicates that vehicle thefts often occur in two distinct areas that conform to a time frame. In most circumstances, thefts occur either in residential areas in the late evening and early morning hours, or in commercial areas in the mid-day hours. In both cases, the perpetrators easily elude observation.

#### RECOVERY & VEHICLE THEFT

Often, the location of the recovery provides law enforcement officials with valuable information on the nature of the crime. In rural areas, vehicles are often abandoned in fields. Vehicles left in suburban and urban areas generally are found on the street, as if parked. In 2017, 68% of reported stolen vehicles were recovered at a value of \$47,933,289.

This rather substantial recovery rate suggests that most vehicle theft instances are related either to transportation purposes or to the use of a vehicle to commit other crimes.

### TYPES OF VEHICLES STOLEN

Although vehicle theft is primarily a crime of opportunity, perpetrators often favor particular makes and models. The following list ranks, according to information received by the Maryland Vehicle Theft Prevention Council, the ten most common vehicles stolen in the area of occurrence.

#### Top 10 Stolen Vehicles in Maryland:

1. Honda Accord	2010
2. Dodge Caravan	2002
3. Toyota Camry	2016
4. Ford Pickup (Full Size)	2005
5. Nissan Altima	2015
6. Honda Civic	2013
7. Hyundai Sonata	2013
8. Toyota Corolla	2013
9. Acura TL	2005
10. Jeep Cherokee/Grand Cherokee	2000

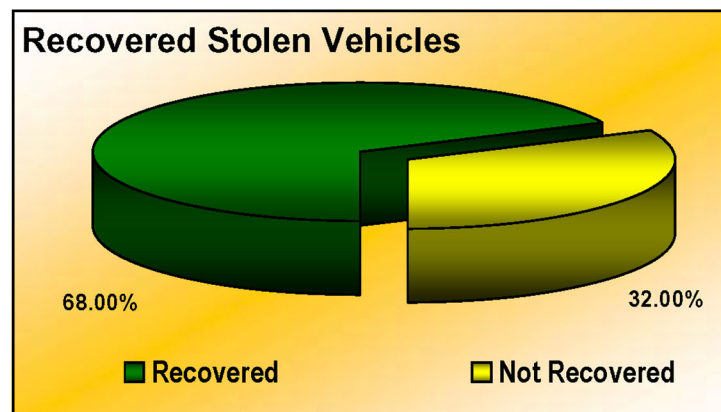

#### Top 10 Stolen Nationwide:

1. Honda Civic	1998
2. Honda Accord	1997
3. Ford Pick-Up (Full Size)	2006
4. Chevrolet Pick-Up (Full Size)	2004
5. Toyota Camry	2017
6. Nissan Altima	2016
7. Toyota Corolla	2016
8. Dodge Pick-Up (Full Size)	2001
9. GMC Pick-Up (Full-Size)	2017
10. Chevrolet Impala	2008

### MOTOR VEHICLE ROBBERY

In 2017, there were 822 car jackings, a 28% increase from the 644 reported in 2016, and the 524 reported in 2015. It has previously been hypothesized that, as public awareness programs increase and anti-theft devices become more popular, carjackings would also increase. However, recent data does not support this hypothesis. From 1994 - 2000, vehicle theft decreased 36% and carjacking decreased 44%.

From 2005 - 2017, vehicle theft decreased 60% and carjacking decreased 42%. The nature of vehicle theft and vehicle robbery differ drastically. Whereas vehicle theft is a crime of opportunity, vehicle robbery presents the perpetrator with intense personal involvement with the victim. In 2017, vehicle theft decreased 2% and carjacking increased 28% over the previous year.

**Consumer Reports**

Driver error is to blame  
in **40% to 50%** of  
vehicle thefts.

(keys in vehicle / windows  
down / doors unlocked)

### THE EXTENT OF VEHICLE THEFT

The Baltimore Region has seen decreases in vehicle theft since 1994 levels. The most dramatic decreases can be seen in Harford County, Howard County, and Baltimore County. These three areas, respectively, had decreases of 79%, 69% and 67% since the intervention of the Council in 1994. In addition, as part of the Baltimore Metro area, Anne Arundel County has experienced a 63% decrease, while Baltimore City has decreased 62%.

The Washington Region has seen similar success since 1994 with Montgomery County experiencing a 75% decrease, Prince George's County decreasing 67%, and Charles County seeing a decrease of 58%.

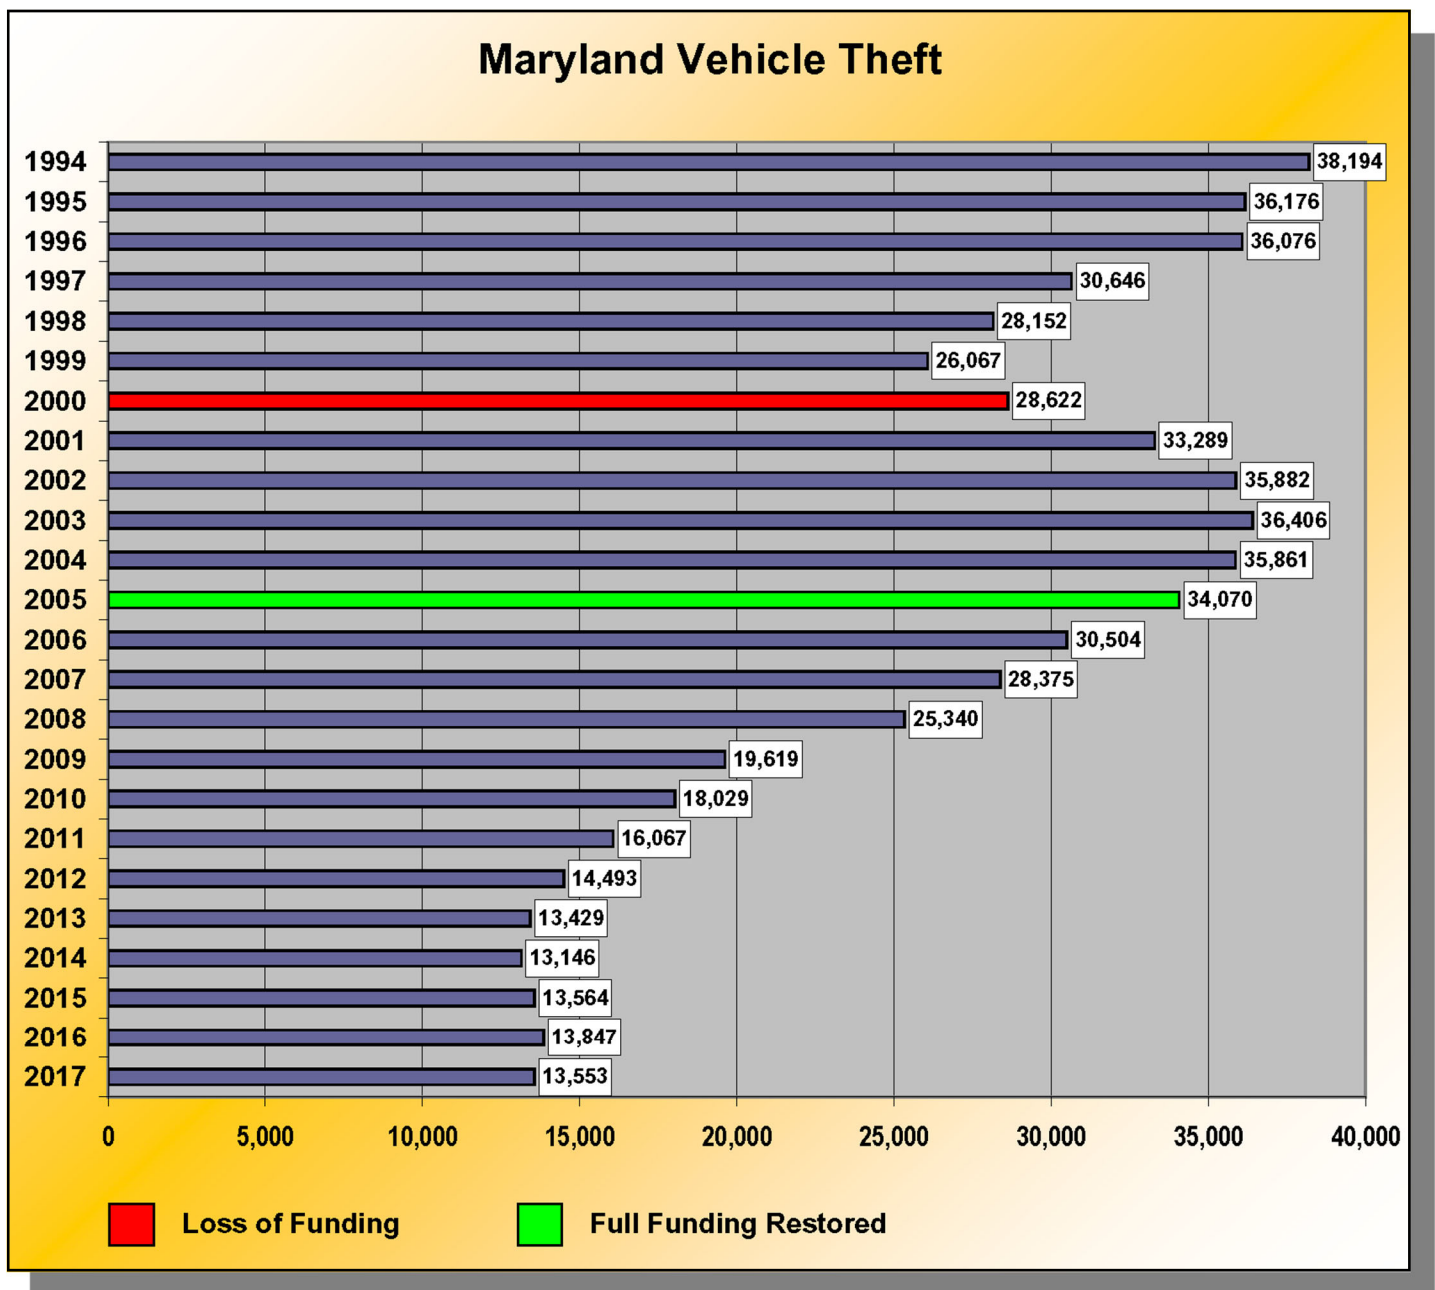

Most non-urban regions of the state experienced decreases in vehicle theft since the inception of the council. The Western Region (Allegany, Carroll, Frederick, Garrett, and Washington Counties) was no exception, with a decrease of 31%. The Eastern Shore Region (Caroline, Cecil, Dorchester, Kent, Queen Anne's, Somerset, Talbot, Wicomico, and Worcester Counties) reported a decrease of 38%. The Southern Region (Calvert, Charles, and St. Mary's Counties) reported a decrease of 48%. Of note is a 71% increase in Dorchester County and a 39% increase in Calvert County, as well as a 30% decrease in St. Mary's County and a 29% decrease in Garrett County.

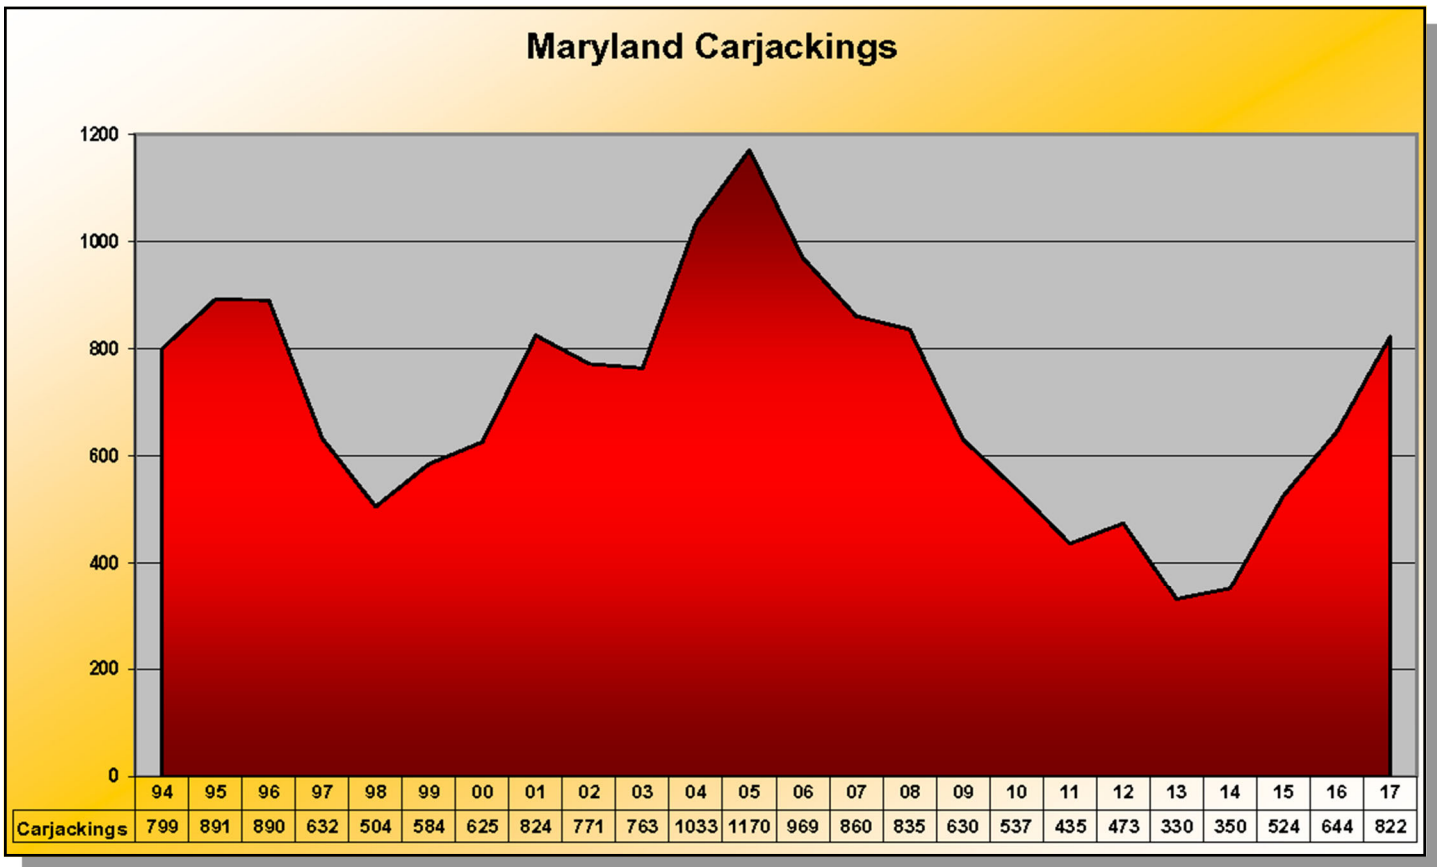

### COMPARISON WITH OVERALL CRIME

The trends in vehicle theft during 2017 can be compared to other forms of crime. On the whole, crime in Maryland decreased 3% over 2016. For 2017, the vehicle theft rate in Maryland has decreased 2%. Since the Council's first programs were implemented in 1994, the motor vehicle theft rate has declined 64%.

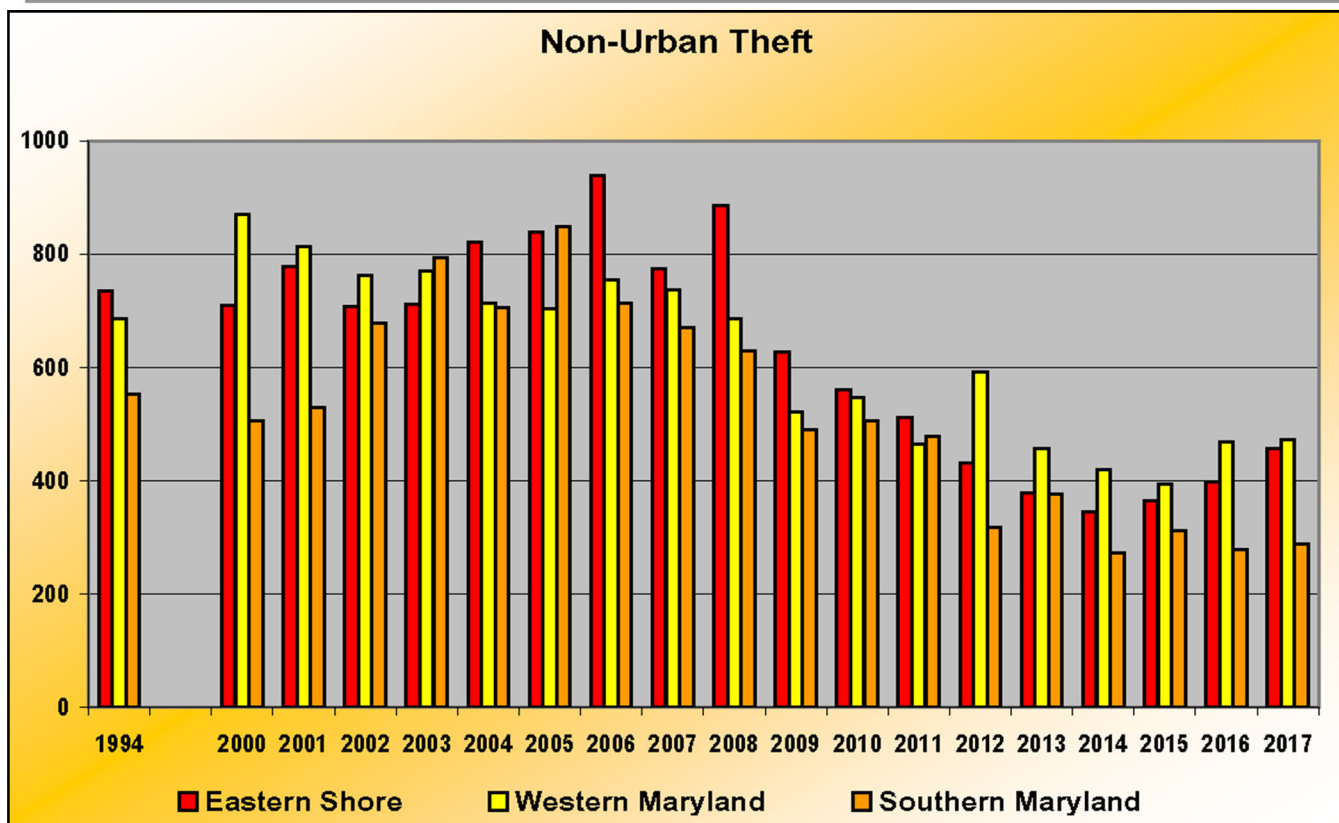

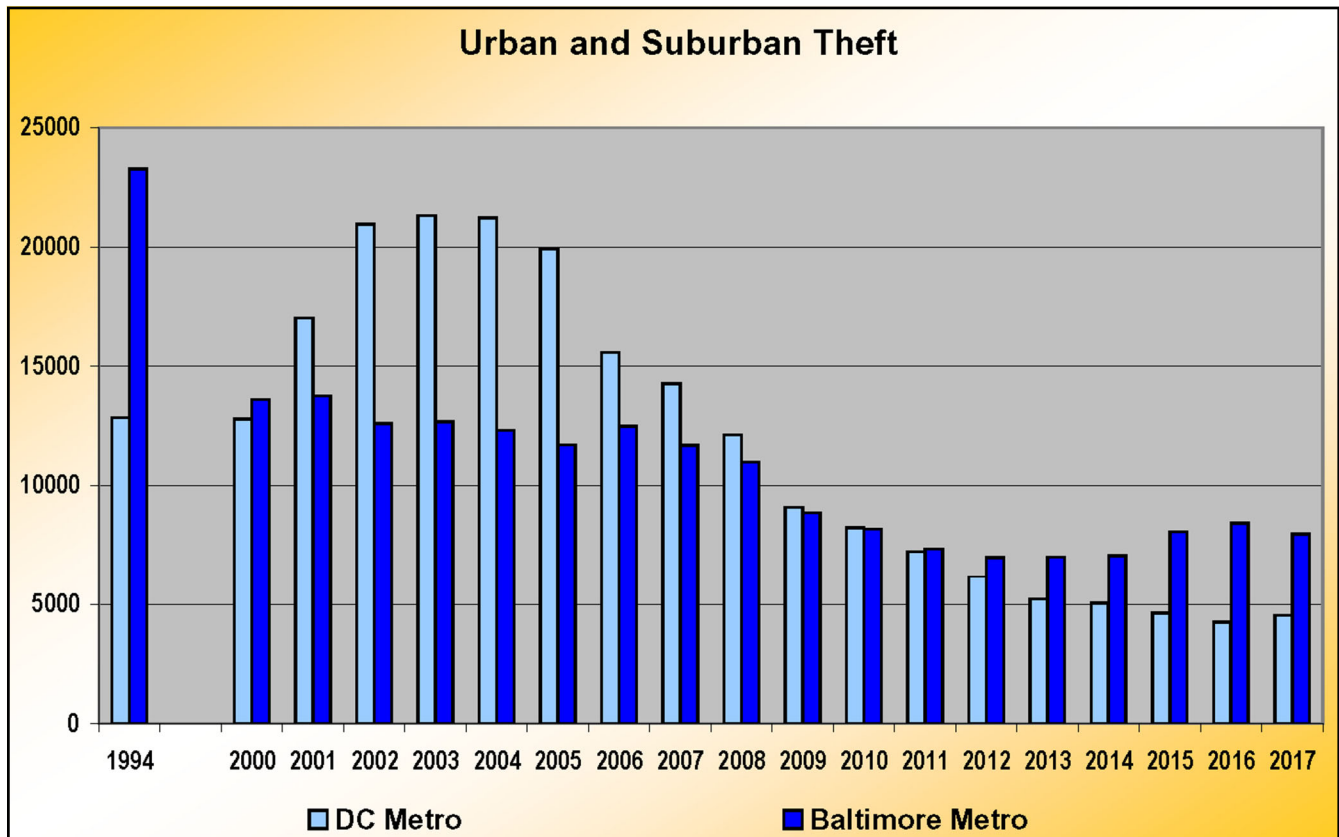

## Carjackers look for the right opportunity.

Generally, carjackers look for drivers slowing down, stopping, or getting into or out of their vehicle.

That is why carjacking often occurs in parking lots and garages, at stop lights and signs and by the side of the road.

If you encounter a carjacker, surrender the vehicle without a fight. Carjacking is a serious and very dangerous situation. You can replace a car, but the life of every Maryland resident is precious.

### STATEWIDE VEHICLE THEFT STRATEGIES

#### FOUR PART APPROACH

The Council has embraced a four-part programmatic approach based on efforts in other states which have proven effective in the prevention of vehicle theft.

#### PREVENTION / EDUCATION

Statistics estimate that in three out of four cases of auto theft, owners left the doors unlocked. In one out of four cases, keys were left in the ignition. Without prevention efforts and public support, law enforcement alone cannot effectively prevent vehicle thefts in Maryland.

Public education campaigns and prevention training programs can increase individual awareness of the cost of vehicle theft, provide tips for vehicle owners to prevent thefts, and demonstrate the savings that preventative measures yield. The Council encourages prevention programs that promote public awareness and provide public training in the preventative measures.

In an effort to assure maximum effectiveness and statewide coverage of a prevention campaign, the Council encourages programs covering multiple jurisdictions. Partnerships promoting vehicle theft prevention programs between local law enforcement agencies and community organizations are strongly promoted. All law enforcement grants are required to have a prevention component.

#### DETECTION AND APPREHENSION

The Council encourages detection and apprehension programs by specifically allocating funds to law enforcement agencies. Vehicle theft detection and apprehension programs include community involvement programs, detection training programs, and enhancements to information-gathering programs. Vehicle theft often transcends jurisdictional boundaries; the Council, therefore, encourages law enforcement efforts covering multiple jurisdictional boundaries. An example of this is multi-agency vehicle theft enforcement teams. Multi-jurisdictional efforts may include municipalities, counties, regions, and community organizations.

#### PROSECUTION & CONVICTION

Prosecution and conviction of automobile thieves is one of the most important means of breaking vehicle theft rings and reducing the economic incentives of vehicle theft.

In the past, the prosecution of vehicle theft cases had a relatively low priority at both local and state levels because of four factors: staffs were limited and consumed with prosecution of violent crimes, vehicle theft is a property crime as opposed to a

personal crime, victims receive insurance compensation, and vehicle theft prosecutions are complex and expensive in comparison to resultant penalties. A special prosecutor to handle vehicle theft cases through both district and circuit courts is an effective method in achieving convictions.

The Council encourages prosecution and judicial programs designed to assist with the prosecution of persons charged with vehicle theft offenses, as well as efforts to implement legislative changes that

facilitate the prosecution of vehicle thieves and forfeiture of their property.

#### JUVENILE INTERVENTION

Because of the large percentage of juveniles involved in auto theft, the Council dedicates a percentage of funds to juvenile service agencies to develop programmatic initiatives with specific vehicle theft offense components. The funds will also be used to improve data collection to enhance research and analysis capabilities of juveniles involved in vehicle theft and related offenses. Schools may be an effective setting for presenting special vehicle theft programs to large groups of young people. Current study data indicates a need to influence juveniles in both middle and high schools about the consequences of vehicle theft.

---

***The Council encourages prevention programs that promote public awareness and provide public training in the preventative measures.***

### THE COUNCIL'S IMPACT ON PREVENTING VEHICLE THEFT

Since its inception, the Maryland Vehicle Theft Prevention Council has been effective in its efforts to combat vehicle theft throughout the State of Maryland. The combination of public awareness, prevention, and education has played an integral role in the decline in vehicle theft. By continuing to fund the council, this multi-faceted approach can continue to be applied and provide untold benefits towards the continued reduction of auto theft statewide.

#### ANTI-CAR THEFT COMMITTEE

In 1997, the Council organized the Maryland Anti-Car Theft Committee (ACT) as a public/private partnership between the Council, automobile insurance carriers, and other vehicle related organizations.

The ACT Committee was formally incorporated in Maryland as a 501(c3) nonprofit tax exempt organization. The primary function of the ACT Committee is to organize and fund various public awareness/education/prevention programs throughout Maryland, thereby enhancing and broadening the base of the Council's efforts. The Council continues to partnership with the ACT Committee.

In 2000, ACT expanded its area of responsibility to include the District of Columbia, becoming the MD-DC ACT Committee. The MD-DC ACT Committee assists the Maryland Vehicle Theft Prevention Council in promoting public awareness campaigns around the state.

#### "WATCH YOUR CAR"

In October 1997, Maryland was awarded a Department of Justice, Bureau of Justice Assistance grant to launch the national "Watch Your Car" program. Maryland was one of the first seven states to be at the forefront of this national vehicle theft prevention program. The "Watch Your Car" initiative allows motor vehicle owners to voluntarily display a reflective decal on their vehicles to alert police that the vehicle is not normally driven between the hours of 1 a.m. and 5 a.m. If the vehicle is observed being operated during these hours, the owner has consented to having the vehicle stopped by police anywhere in the United States. Police can then ensure that the vehicle is not stolen.

This program is totally voluntary and at no cost to the participants. Similar decal programs throughout the country have proven successful. This program was officially implemented in August of 1998. Currently, there are approximately 40,000 Maryland motorists registered in the program with law enforcement agencies participating statewide. In 2000, the Council applied for, and received, "Watch Your Car" Supplemental Funding of \$240,000.00. This continued the program through 2003. The Council has since assumed funding responsibilities to continue this valuable program.

## COUNCIL WEBSITE [www.mdautotheft.org](http://www.mdautotheft.org)

Our website is directed at providing vehicle theft prevention data and an interactive link to the public and numerous other vehicle theft prevention organizations nationwide.

The collage displays two main screenshots of the Maryland State Police website:

- Top Screenshot:** Shows the 'Vehicle Theft Prevention Council' page. It features a search bar, navigation tabs (HOME, ORGANIZATION, NEWS, ABOUT, CAREERS, FAQs, CONTACT US, VETERAN SERVICES), and a sidebar with 'Organization' and 'Superintendent Links'. The main content area includes a 'Did you know?' section with statistics: 'In Maryland, a car is stolen every 40 minutes. In the United States, it is every 45 seconds.', '50% of the vehicles stolen had the keys inside the vehicle.', '60% of the vehicles stolen were left unlocked.', 'More than 66% of vehicle thefts occur at night.', and '95% of the vehicles stolen had no anti-theft devices.' It also includes a 'Social Bookmarks' section.
- Bottom Screenshot:** Shows the 'Watch Your Car Program' page. It features a search bar, navigation tabs, and a sidebar. The main content area includes a 'The KEY to preventing vehicle theft is in your hands.' section with the slogan 'Lock your car, Take the key, Use an anti-theft device.' and a 'Participate in the Maryland "Watch Your Car" Program' section with the slogan 'Make your Car Tough to Steal'. It also includes a 'How it works' section explaining the program's details.

A large circular graphic with the text 'VEHICLE THEFT PREVENTION COUNCIL' is overlaid on the right side of the collage. The graphic also includes the slogan 'YOU HOLD THE KEY' and the 'Watch Your Car' logo.

## Vehicle Theft By The Numbers

**773,139** The number of cars stolen in the United States in 2017.

**13,553** The number of cars stolen in the State of Maryland in 2017.

**95%** The percentage of stolen vehicles that had no apparent anti-theft devices.

**66%** The percentage of vehicle thefts that occur at night.

**60%** The percentage of stolen vehicles that were unlocked.

**50%** The percentage of stolen vehicles that had the keys inside the vehicle.

**22%** The percentage of stolen vehicles that are not recovered.

**45** The number of seconds between each auto theft in the United States.

**40** The number of minutes between each auto theft in the State of Maryland.

### FACT:

*Brochures like these have helped the Maryland Vehicle Theft Prevention Council raise awareness in residents throughout the state.*

### VEHICLE THEFT FACTS AND TIPS

#### Did you know?

- ◆ In 2017, there were 13,553 motor vehicles stolen in Maryland.
- ◆ A vehicle theft occurs every 39 minutes in Maryland.
- ◆ In approximately 50 percent of the vehicles stolen, keys were left in the vehicles.
- ◆ It is estimated that 60 percent of the vehicles stolen were not locked.
- ◆ 1,951 individuals were arrested for vehicle theft in 2017.
- ◆ Juveniles represented 25% of the arrests for vehicle theft in Maryland.
- ◆ Approximately 25 to 40 percent of the cost of comprehensive auto insurance is due to auto theft.
- ◆ National surveys reveal that 33% of drivers left their car while it was running.
- ◆ Driver error is to blame in 40 to 50 percent of vehicle thefts (keys in ignition, key fobs left in vehicles, windows down, unlocked doors).

#### Protect yourself and your car!

- ◆ You hold the key! Lock your car and take the key.
- ◆ Use anti-theft devices such as alarms, kill switches, steering wheel and brake locking devices, or recovery systems.
- ◆ Park in well-lit and heavily traveled areas.
- ◆ Park with wheels turned toward the curb.
- ◆ Lock vehicle doors upon entering.
- ◆ Do not hide spare keys in or under the vehicle, they can be easily found.
- ◆ Never leave a vehicle title, driver's license, or any type of owner identification in the glove box.
- ◆ Place valuables out of sight; for SUV's utilize a cargo cover.

**Lock Your Car, Take Your Keys/Fobs,  
Hide Your Valuables!**

### IN WORDS & PICTURES

*"The Montgomery County Department of Police Centralized Auto Theft Section is proud to have been a partner with the VTPC for more than two decades. We look forward to working with other members to combat auto theft and their related crimes in the years to come."*

### COLLEGE STUDENTS HELP POLICE PUT THE BRAKES ON AUTO THEFT

Maryland's Vehicle Theft Prevention Council, in partnership with the Maryland State Police and the Maryland/DC Anti Car Theft Committee, presented \$7,350.00 in scholarship money to college students enrolled at Towson University and the College of Southern Maryland for their winning entries into the eighth annual radio and television PSA competition. The public service announcement entries, in both the radio and television categories, were required to focus on new trends in auto theft.

Contrary to the belief, auto thieves do not focus solely on new vehicles. Award recipients produced thirty second spots that are currently being used in a media campaign to reach a target audience who is unfamiliar with the rapidly growing criminal enterprise. The PSA's are made available to all media for broadcast and can be heard on WBAL 1090 and 98 Rock every morning and afternoon rush hour. Grand prize winning entries can be found at: [www.mdautotheft.org](http://www.mdautotheft.org)

Students at the College of Southern Maryland bring home \$4,800.00 in prize money for their work on audio and video public service announcements to raise awareness about vehicle theft prevention in Maryland.

Towson University students in the Electronic, Media and Film Department walked away with \$2,550.00 in prize money for their work in producing audio public service announcements to drive home the important message to Maryland citizens about preventing vehicle theft.

*“The community conferencing process not only provides a voice for victims of vehicle theft, but it also provides a space for accountability, where a young person has to directly face those affected by their actions. This level of accountability provides for self-examination and mitigates vehicle theft by preventing these offenders, who are better able to understand how what they do impacts everyone around them, from re-offending and committing more serious crimes. This would not be possible without support from the Vehicle Theft Prevention Council.”*

## MARYLAND VEHICLE THEFT PREVENTION

*“The partnership between the Anne Arundel County Police and the Vehicle Theft Prevention Council continues to reap positive benefits for the citizens of Anne Arundel County. The VTPC helps equip our investigators with the best tools, training, and other resources to combat auto theft in the Baltimore/Washington corridor.”*

**Sgt. Matt Evans**  
Anne Arundel County Police  
Auto Theft Unit

A photo from Maryland State Troopers assigned to the Regional Auto Theft Task Force (RATT) in the Baltimore Metro Area and the Washington Area Vehicle Enforcement (WAVE) Teams.

State Troopers receive grant-funding each year through the Vehicle Theft Prevention Council (VTPC). These grant funds are vital to the Maryland State Police in their enforcement efforts. Motor vehicles are used in roughly 80% of all crime that is committed across the country.

This picture is of a recovered Ford Raptor, stolen from a dealership and used in an attempted murder in Virginia. VTPC funds allowed for the use of the infotainment system. The data was downloaded and revealed that the suspect synced their phone to the vehicle's computer. This information was forwarded to Falls Church Police were able to locate and arrest the suspect thus closing their case by arrest.

*“We continue to see and experience the rise and increase of much crime. We are very fortunate, and benefit greatly from an Organization that focuses all of its energy and that it’s sole mission is to prevent auto theft. Much success in 2019.”*

**Neil Schachter**  
President, Northwest Citizens Patrol

On March 26, 2018, MVA Investigator Banahan recovered a 2013 Toyota Venza that had been reported stolen in New York in 2015. The unique part of this recovery was that the vehicle was recovered at the Glen Burnie Branch of MDOT MVA.

The vehicle first came to Agent Banahan's attention on February 28, 2018 after a customer appeared at the Beltsville Branch and attempted to renew his stickers. Beltsville CSA Sean Ross discovered that there was another vehicle registered with the same VIN. CSA Ross referred the customer to the Division of Investigations and Security Services and ultimately Agents Banahan and Robert Myers were assigned to the follow up on the inquiry.

The customer came to the Division of Investigations on March 1, 2018 and filed a complaint but never mentioned the prior problem in Beltsville. The customer left the building before an investigator could interview him. In the meantime, Agent Banahan researched the title work and immediately recognized that the NY title used by the customer to title the vehicle in Maryland was fraudulent.

On March 26, 2018, the customer returned to the Division of Investigations and, fortunately, Agent Banahan was working the Customer Service Counter. Agent Banahan realized that this was the customer associated with the two vehicles titled in MD with the same VIN. Agent Banahan directed the customer to take the vehicle to Building D (Garage area) for an inspection.

Agent Banahan's years of experience as an auto theft investigator allowed him to immediately recognize that the PVIN (Public VIN) was counterfeit, with the original manufacturer's applied VIN partially visible underneath the fraudulent label. The Federal Safety Label was also counterfeit with numerous misspelled words and a barcode that would not scan. The door VIN labels were counterfeit and there were visible scratches where the original labels had been scraped off. At that point, the customer was told that the vehicle was probably stolen and he was told to remove all his personal property.

Maryland State Police Transportation Inspector John Lanzetta subsequently obtained the true VIN of the vehicle using an On-Board-Diagnostic (OBD) scanner. The VIN was checked through NCIC and the vehicle was verified as a vehicle reported stolen in New York in 2015. The Auto Theft Unit of the Anne Arundel County Police was notified and they took custody of the vehicle. The follow-up to

the theft of the vehicle is being conducted by the Washington Area Vehicle Enforcement Team (WAVE).

So far, we know that the vehicle was titled in Maryland on June 27, 2015 through "A Tag and Title" in Prince George's County. The customer stated that he bought the vehicle from an individual who lives in NJ. He said he paid \$8,000 cash and then \$1000 a month by wire or money order. The customer stated that the seller told him the vehicle was bought at an auction in NY. The cell phone number the customer had for the seller has been disconnected for some time.

On May 15, 2018, another stolen vehicle was recovered by MDOT MVA. This time the vehicle is a 2009 Mercedes Benz C300 which was stolen in Washington, DC on March 17, 2018. The recovery is the result of a combination of good MVA team work and the way TARIS populates the vehicle description fields when the title number is entered to start the title transaction.

The recovery started on April 25, 2018 when Jules Kamche, of Silver Spring, brought a title application for a 2009 Mercedes Benz with VIN WDDGF81X59F173861 on MD title 49745709 in the name of Jessica Anne Butler to the White Oak Branch Office. The Maryland title was a counterfeit of very good quality. The VIN and title were obviously fictitious.

When the transaction was processed the Customer Agent, Shanae Epps, entered the phony title number into TARIS. TARIS evidently auto-populated the VIN and vehicle description based on the title number that was in the system, and that phony title number came back to a Toyota. No one recognized that the title number used was for a 2015 Toyota thus Mr. Kamche was issued a title and registration for the wrong vehicle. When Mr. Kamche noticed the error, he returned to the Branch for a "correction."

White Oak staff contacted the Corrections Unit who suspected that the MD title used in application was fraudulent and told the White Oak staff to forward the information to the Investigations Division. Chief Mike Birmingham located the original title paperwork for the transaction made by Mr. Kamche and immediately confirmed that the Maryland title was a counterfeit.

The VIN on the counterfeit title did not pass the "VIN Check" and there was no MD title record as Mr. Kamche asserted, so Chief Birmingham arranged with Mr. Kamche to bring the Mercedes to the Glen Burnie MVA where Investigator Banahan could identify the vehicle's true VIN.

On May 15, 2018, Mr. Kamche brought the Mercedes to Glen Burnie where it was identified through the "Confidential VIN" as having VIN: WDDGF81X19F269518. This VIN was checked through NCIC and confirmed as a stolen vehicle. The vehicle had fake VIN labels and a Federal Safety Label. The WAVE Task Force was contacted and Corporal Wingfield of the MSP responded to GB MVA.

Mr. Kamche, who is cooperating, was interviewed and provided a written statement describing how he came into possession of the Mercedes and he also identified the individual from whom he purchased the vehicle. Cpl. Wingfield is following up on the information.

In summary, MDOT MVA's team of customer agents and investigators thwarted an attempt to "wash" a stolen vehicle by using counterfeit documentation. This was our second recovery in 2018.

Photo & Text Courtesy of Eric Danz, Manager, MDOT, Maryland Motor Vehicle Administration Division of Investigations and Internal Affairs

During the early part of 2018, State Troopers recovered a fictitious license plate created on a laser printer. During a combined criminal and warrant initiative in Baltimore City, Maryland the vehicle displaying the fake plates was stopped for numerous traffic violations. The traffic stop led to the recovery of a stolen Chevrolet Suburban and the recovery of a stolen handgun.

A statewide intelligence bulletin was posted as a result of the traffic stop. A post-arrest debrief revealed that organized crime entities in Baltimore were making and using the fake license plates to commit crime and throw off Investigators if a license plate was given during the post-crime lookout.

Here are two classroom photos taken during an IMPACT sponsored 2 Day Basic Vehicle Crimes School.

This class was hosted by the Regional Auto Theft Team in Baltimore County. RATT trains 100 officers yearly by hosting this school twice a year. Patrol officers from multiple jurisdictions are introduced to concepts involving vehicle crimes. Typical instruction topics include Methods of Theft, Lojack, Insurance fraud related to vehicle use, basic on-line investigative techniques, and current theft and fraud trends.

This training is valuable in that patrol officers are often first on scene and take theft and accident reports involving vehicles. Having a good foundation and knowledge base on all types of vehicle crime improves reporting and allows officers to identify questionable reports or incidents and take appropriate action in a timely fashion. It also gives officers some insight into what this specialized unit is about to assist in their career planning.

# APPENDIX D

# GRANT RECIPIENTS

Summary of Grant Recipients for  
Fiscal Year 2019

## Law Enforcement

### Annapolis Police Department Auto Larceny Education Reduces Thefts

A highly motivated public education and awareness program directed at preventing and deterring vehicle theft and theft from vehicles.

**FY 2019 Award: \$21,000**

### Anne Arundel County Police Department

#### Vehicle Theft Investigation, Prevention, Education, and Recovery (VIPER)

A comprehensive vehicle theft investigation, prevention, education, and recovery project to effectively reduce the serious vehicle theft activity in the county.

**FY 2019 Award: \$60,000**

### Baltimore County Police Department (RATT)

Provides vehicle theft prevention and educational training, identifies repeat offenders, enhances prosecution, and establishes a multi-jurisdictional vehicle theft investigative task force with the Baltimore City Police Department and the Maryland State Police.

**FY 2019 Award: \$350,000**

**Award includes both Auto Theft Reduction through Crime Analysis and Cracking Down on Auto Theft programs.**

### Charles County Sheriff's Office Vehicle Theft Project

Provides for a dedicated vehicle theft investigator, vehicle theft investigative training, and aggressive community prevention and education program.

**FY 2019 Award: \$30,000**

### Department of Maryland State Police

#### Theft Reduction, Enforcement & Support

Provision of vehicle theft investigation and technical assistance to local law enforcement agencies, statewide vehicle theft enforcement program.

**FY 2019 Award: \$136,000**

### Harford County Sheriff's Office Theft Reduction, Enforcement & Support

A comprehensive vehicle theft investigation, prevention, education, and recovery project to effectively reduce the serious vehicle theft activity in the county.

**FY 2019 Award: \$29,000**

### Howard County Department of Police

#### Howard County Interagency Collaboration on Vehicle Theft Reduction

The formation of an interagency team dedicated to vehicle theft reduction by maximizing prevention, investigation, and prosecution efforts.

**FY 2019 Award: \$105,000**

### Maryland Motor Vehicle Administration (MVA) Stolen & Uninsured Vehicle Initiative

Target vehicle theft through the use of technology and relationships with established auto theft units.

**FY 2019 Award: \$96,000**

### Montgomery County Police Department

#### Vehicle Theft Enforcement and Prevention Project

Implements a task-force approach to vehicle theft by creating a centralized vehicle theft investigative unit, encouraging prevention through public education, and proving crime analysis. This grant also provides for a Montgomery County Prosecutor's Office to directly assist police efforts.

**FY 2019 Award: \$170,000**

### Prince George's County Police Department - WAVE Team Vehicle Theft Prevention Initiative

Comprehensive program directed at law enforcement, support and participation in the Washington Area Vehicle Enforcement Team; Analyze stolen and recovered vehicle theft data, public information campaign directed at empowering the role of citizens through "Lockit & Pocket", a Community Prevention Program and enhanced cooperation with prosecutor.

**FY 2019 Award: \$350,000**

# APPENDIX D

## GRANT RECIPIENTS

Summary of Grant Recipients for  
Fiscal Year 2019

### Prosecution

#### Baltimore City State's Attorney's Office

##### ACARS Conquering Auto Theft Recidivism Soon

Computer tracking and analysis of case prosecution of juvenile vehicle theft offenders and direct support to police efforts.

**FY 2019 Award: \$51,000**

#### Baltimore County State's Attorney's Office

##### A Comprehensive Enforcement and Prosecution Project

Intensive prosecution of repeat vehicle theft offenders and direct support to police efforts.

**FY 2019 Award: \$120,000**

#### Prince George's County State's Attorney's Office

##### Aggressive Auto Theft Prosecution: Applying Resources and Getting Results

Program directed at aggressive prosecution to improve conviction rates for adults and juveniles charged with vehicle theft and to get higher sentencing for convicted offenders.

**FY 2019 Award: \$90,000**

### Juvenile

#### Community Conferencing Center

##### Building Community Conferencing as an Effective Intervention for Juvenile Theft

Unique community justice intervention that includes victims, offenders, and their respective supporters in deciding how to best resolve the incident. Project targets young people who steal cars for the first time. Community conferencing helps offenders to understand the impact of their behavior which has shown to decrease the likelihood that it will happen again.

**FY 2019 Award: \$30,000**

### Community Prevention

#### Maryland Community Crime Prevention Institute

##### Vehicle Theft Prevention Public Awareness Support

Supports the Vehicle Theft Prevention Council's public awareness campaign through the operation of the toll free hotline (1-800-96-THEFT) and distribution of brochures and other educational materials.

**FY 2019 Award: \$22,000**

#### Northwest Citizens Patrol

##### Vehicle Theft Prevention Project

Promotes education and crime prevention by focusing on both offenders and vehicle owners. Tactics include educating vehicle owners through marketing and community seminars and deterring offenders through aggressive cooperation with prosecutors and delaying parole of offenders.

**FY 2019 Award: \$30,000**

#### Olde Mill Foundation

##### Auto Theft/Prevention/ Education and Information Initiative

Vehicle theft prevention program at the grassroots community level. Coordination with community police officers and juvenile intervention prior to the offense.

**FY 2019 Award: \$25,000**

Community Conferencing Center

### Public Awareness

#### Vehicle Theft Prevention Council

##### Public Awareness Campaign

Promotes action to lower rates of auto theft statewide by establishing the best possible media themes and methods to increase public awareness and to educate citizens in vehicle theft prevention measures.

**FY 2019 Award: \$48,000**

### Miscellaneous

#### Industry Merged with Police Against Car Theft (IMPACT)

Provides Basic, Advanced and Certification Training for Law Enforcement and Auto Insurance Special Investigation Units

**FY 2019 Award: \$40,000**

#### Washington College

Collect, analyze, and map data to better understand and develop strategies to reduce vehicle theft in Maryland.

**FY 2019 Award: \$66,000**

### VEHICLE THEFT ON THE ROAD

*Pictured above is the Vehicle Theft Prevention Display and information booth maintained by the Maryland Community Crime Prevention Institute on display during the Annual Governor's Crime Prevention Awards Ceremony.*

*Award winners, guests and dignitaries from across the state attended the event.*

*The video monitor on the display presents repeating messages about vehicle theft prevention as well as PowerPoint slides and other timely information.*

Claude Nelson  
MCCPI Manager & State DARE Coordinator  
Department of Public Safety and Correctional Services  
Maryland Police and Correctional Training Commissions

The key to preventing vehicle theft *is* in *your* hands.

Lock your car.  
Take the key.  
Use an anti-theft device.  
Participate in the Maryland  
“Watch Your Car” Program.
