## **Uniform Crime Report** *Crime in the United States*

In the FBI's Uniform Crime Reporting (UCR) Program, motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. In the UCR Program, a motor vehicle is a self-propelled vehicle that runs on land surfaces and not on rails. Examples of motor vehicles include sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, all-terrain vehicles, and snowmobiles. Motor vehicle theft does not include farm equipment, bulldozers, airplanes, construction equipment, or water craft such as motorboats, sailboats, houseboats, or jet skis. The taking of a motor vehicle for temporary use by persons having lawful access is excluded from this definition.

# 2019 ANNUAL REPORT

## MARYLAND VEHICLE THEFT PREVENTION COUNCIL

---

### COUNCIL MEMBERS

The Vehicle Theft Prevention Council consists of thirteen members appointed by the Governor. The Council includes representatives of law enforcement, prosecutors' offices, automobile insurers, state government, and the general public.

#### EX OFFICIO MEMBERS

**Colonel Woodrow W. Jones III**

Secretary, Department of State Police  
Chair

**Sam J. Abed**

Secretary, Department of Juvenile Services

**Robert L. Green**

Secretary, Department of Public Safety &  
Correctional Services

**Christine Nizer**

Administrator, Motor Vehicle Administration

#### COUNCIL STAFF MEMBERS

**Christopher T. McDonold**

Executive Director

**Gregory M. Shipley**

Director  
Department of State Police  
Office of Media Communications

**Elena Russo**

Deputy Director  
Department of State Police  
Office of Media Communications

#### REGULAR MEMBERS

**James V. Aluisi**

Community Representative  
Anne Arundel County

**Neil Schachter**

Community Representative  
Baltimore County/Baltimore City

**Thomas P. Reich**

National Insurance Crime Bureau (NICB)

**Victor E. Epps**

Nationwide Insurance Company, Foreign  
Insurance Carrier Representative

**Hon. Scott D. Shellenberger**

State's Attorney for Baltimore County

**Martin A. Hammond III**

Representative  
Office of the Governor

**Phillip V. Lee**

Community Representative  
Prince George's County

**Larry E. Hinton**

Government Employees Insurance Company  
(GEICO)

**Chief Henry P. Stawinski III**

Prince George's County Police Department

# A PARTNERSHIP IN LAW ENFORCEMENT

### EXECUTIVE SUMMARY

The Vehicle Theft Prevention Council (Council) is in its 25th year of service to the citizens of the State of Maryland. Council Programs have proven to be highly effective with a direct correlation to funding levels. From 1995 - 2000, Vehicle Theft Programs were fully funded and vehicle theft decreased 32%. From 2001 - 2004, funding levels were drastically reduced and vehicle theft increased 28%. Full funding levels were restored in 2005, with a corresponding decrease of 64% by 2018. Since the Council's inception in 1994, vehicle theft in Maryland has decreased 68% in total numbers.

#### WASHINGTON REGION

Of significance, is the high level of vehicle thefts experienced in Prince George's County. Between 2001 - 2004, vehicle theft increased 102% from 8,659 to 18,482. With enhanced funding in FY 2005 - FY 2018, vehicle theft prevention programs were restored in the County. By the end of 2018, vehicle theft had decreased 68% to a level of 4,122 vehicle thefts in the Washington Region.

#### BALTIMORE REGION

The Council's most prominent success has been in the Baltimore Region. In 1994, 52% of all vehicle thefts in the state occurred in Baltimore City and Baltimore County. The Council's first funded Program was to assist in creating a multi-jurisdictional Task Force between the City and the County which has come to be known as the Baltimore Regional Auto Theft Team, or RATT. This proved to be highly successful; vehicle theft rates in Baltimore City and Baltimore County decreased 50% between 1995 - 2000, while vehicle theft in those areas has since decreased an average of 48%. The RATT concept was duplicated in the Washington Region in 2005 with similar results.

#### 2019 COUNCIL INITIATIVES

In July 2019, the Council awarded 20 grants to a variety of organizations encompassing public awareness and prevention, law enforcement, prosecution, and juvenile intervention for a total of \$1,869,000.00. These grants were focused on the Baltimore/Washington Metropolitan Area where 92% of all vehicle thefts occur. Grants in the Baltimore Region were awarded to Baltimore City, Baltimore County, Anne Arundel County, Harford County, Howard County, and the City of Annapolis. Grant assistance in the Washington Region includes Prince George's, Montgomery, and Charles Counties.

The Council continues to support and administer "Watch Your Car" which is a National Vehicle Theft Prevention Program. The Program is voluntary and allows police to stop vehicles displaying the special "Watch Your Car" decals between the hours of 1:00 a.m. and 5:00 a.m. There are approximately 40,000 Maryland motorists currently registered in the Program.

The Council also continues to partner with the MD-DC Anti-Car Theft Committee (ACT). ACT is the Council's private sector partner and provides free "VIN Etching" and other vehicle theft prevention services which supplement the Council's public awareness efforts.

#### CONCLUSION

Based upon funding levels, the Council has been successful in providing planning and fiscal resources to state, local jurisdictions, and community organizations whose effort, in turn, affected vehicle theft rates. Our goal is not only to continue to reverse the vehicle theft trend, but to continue to manage the problem in the future.

### THE NATURE AND EXTENT OF VEHICLE THEFT IN MARYLAND

After four years of significant increase between 2000 - 2004, Maryland has experienced a 67% percent reduction in vehicle theft since 2003. In 1999, Maryland had a total of 26,063 vehicle thefts, a decrease of 32% over 1994. Total thefts rose to 36,406 in 2003 representing an increase of 10,339 stolen vehicles. In 2004, we saw a slight decrease of 545 stolen vehicles, or -1.5%. In 2018, thefts had decreased to 12,146, or a 67% decrease over 2003. In economic terms, this decrease is significant. Based on the \$8,407.00 UCR average price of a stolen vehicle\*, decreases in thefts since 1994 translates to an economic savings of \$218,985,536 to Maryland citizens.

#### THE NATURE OF VEHICLE THEFT

Vehicle theft is primarily a crime of opportunity. Victims often fail to employ even the most modest precautions to deter theft. Frequently, victims either do not lock the vehicle, leave the vehicle with the keys in the ignition, or occasionally, both. Several surveys indicate that many cases of vehicle theft result from such carelessness. Surveys across the State of Maryland, reveal that about 50% of recovered stolen vehicles had the key (or key fob) in the car at the time of their recovery. Thus, the perpetrators often steal a vehicle with little effort.

#### PERPETRATORS

Auto theft can best be understood by the perpetrator's motivations. Thefts can be distributed into four distinct groups. In most cases, vehicles are stolen either for the resale or distribution of parts, for transportation purposes, for the commission of other crimes, or for exportation. Of these four factors, the greatest threats to Maryland citizens are the destruction of vehicles for parts and exportation. The operation of "chop shops" and exportation allows for the complete destruction of vehicles often resulting in a total loss for the owner. In the other two instances (transportation purposes and the use of vehicles to commit other crimes) the destruction of the vehicle is generally not as certain and the large majority are recovered.

During 2018, 86% of the motor vehicle thefts were cars, 5% were trucks and buses, and 9% were other motor vehicles. Motor vehicle thefts accounted for 9.8% of property crime and 8.0% of the crime index. There were 201 motor vehicle thefts per 100,000 population.

The 2018 Maryland UCR provided final arrest statistics for vehicle theft. In comparing 2017 to 2018 data, arrests for vehicle theft increased from 1,951 in 2017 to 2,100 in 2018. The perpetrators, according to the 2018 UCR, were 82% male and 18% female; with 28% being white, 70.7% African American, 0.5% American Indian, Asian, and Pacific Islander. 25.9% of those arrested for vehicle theft were juveniles.

#### LOCATION OF THEFT

Historical data indicates that vehicle thefts often occur in two distinct areas that conform to a time frame. In most circumstances, thefts occur either in residential areas in the late evening and early morning hours, or in commercial areas in the mid-day

hours. In both cases, the perpetrators easily elude observation.

#### RECOVERY & VEHICLE THEFT

Often, the location of the recovery provides law enforcement officials with valuable information on the nature of the crime. In rural areas, vehicles are often abandoned in fields. Vehicles left in suburban and urban areas generally are found on the street, as if parked. In 2018, 69.7% of reported stolen vehicles were recovered at a value of \$51,606,490.

This rather substantial recovery rate suggests that most vehicle theft instances are related either to transportation purposes or to the use of a vehicle to commit other crimes.

---

***Decreases in thefts since '94 translates to an economic savings of \$218,985,536.00***

### TYPES OF VEHICLES STOLEN

Although vehicle theft is primarily a crime of opportunity, perpetrators often favor particular makes and models. The following list ranks, according to information received by the Maryland Vehicle Theft Prevention Council, the ten most common vehicles stolen in the area of occurrence.

#### Top 10 Stolen Vehicles in Maryland:

1. Honda Accord	2014
2. Toyota Camry	2017
3. Dodge Caravan	2002
4. Nissan Altima	2015
5. Ford Pickup (Full Size)	2006
6. Honda Civic	2012
7. Toyota Corolla	2017
8. Jeep Cherokee/Grand Cherokee	1999
9. Hyundai Sonata	2013
10. Hyundai Elantra	2018

#### Top 10 Stolen Nationwide:

1. Honda Civic	2000
2. Honda Accord	1997
3. Ford Pickup (Full Size)	2006
4. Chevrolet Pickup (Full Size)	2004
5. Toyota Camry	2017
6. Nissan Altima	2017
7. Toyota Corolla	2017
8. GMC Pickup (Full Size)	2018
9. Dodge Pickup (Full Size)	2001
10. Jeep Cherokee/Grand Cherokee	2000

### MOTOR VEHICLE ROBBERY

In 2018, there were 731 car jackings, a 11.1% decrease from the 822 reported in 2017, and the 644 reported in 2016. It has previously been hypothesized that, as public awareness programs increase and anti-theft devices become more popular, carjackings would also increase. However, recent data does not support this hypothesis. From 1994 - 2000, vehicle theft decreased 36% and carjacking decreased 44%.

From 2005 - 2018, vehicle theft decreased 64% and carjacking decreased 60%. The nature of vehicle theft and vehicle robbery differ drastically. Whereas vehicle theft is a crime of opportunity, vehicle robbery presents the perpetrator with intense personal involvement with the victim. In 2018, vehicle theft decreased 10.2% and carjacking decreased 11.1% over the previous year.

# Consumer Reports

Driver error is to blame  
in **40% to 50%** of  
vehicle thefts.

(keys in vehicle / windows  
down / doors unlocked)

### THE EXTENT OF VEHICLE THEFT

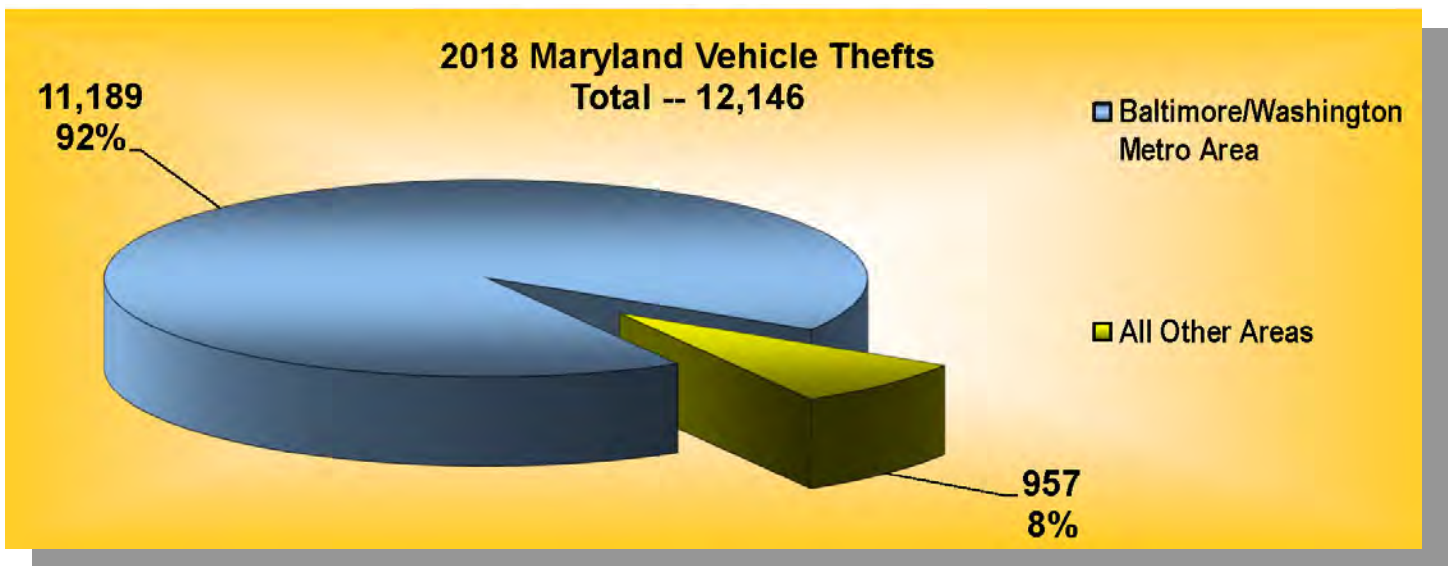

The Baltimore Region has seen decreases in vehicle theft since 1994 levels. The most dramatic decreases can be seen in Howard County, Baltimore County, and Harford County. These three areas, respectively, had decreases of 78%, 71% and 65% since the intervention of the Council in 1994. In addition, as part of the Baltimore Metro area, Baltimore City has experienced a 68% decrease, while Anne Arundel County has decreased 62%.

The Washington Region has seen similar success since 1994 with Montgomery County experiencing a 77% decrease, Prince George's County decreasing 69%, and Charles County seeing a decrease of 60%.

Most non-urban regions of the state experienced decreases in vehicle theft since the inception of the council. The Western Region (Allegany, Carroll, Frederick, Garrett, and Washington Counties) was no exception, with a decrease of 35%. The Eastern Shore Region (Caroline, Cecil, Dorchester, Kent, Queen Anne's, Somerset, Talbot, Wicomico, and Worcester Counties) reported a decrease of 51%. The Southern Region (Calvert, Charles, and St. Mary's Counties) reported a decrease of 46%. Of note is a 9% increase in St. Mary's County and a 88% decrease in Kent County, as well as a 81% decrease in Talbot County and a 66% decrease in Somerset County.

### COMPARISON WITH OVERALL CRIME

The trends in vehicle theft during 2018 can be compared to other forms of crime. There were 152,135 total crime incidents reported in 2018 compared to 167,093 in 2017. The crime index total decreased 8.95% in 2018 when compared to 2017. For 2018, the vehicle theft rate in Maryland has decreased 10%. Since the Council's first programs were implemented in 1994, the motor vehicle theft rate has declined 68%.

### Maryland Vehicle Theft

## Carjackers look for the right opportunity.

Generally, carjackers look for drivers slowing down, stopping, or getting into or out of their vehicle.

That is why carjacking often occurs in parking lots and garages, at stop lights and signs and by the side of the road.

If you encounter a carjacker, surrender the vehicle without a fight. Carjacking is a serious and very dangerous situation. You can replace a car, but the life of every Maryland resident is precious.

### STATEWIDE VEHICLE THEFT STRATEGIES

#### FOUR PART APPROACH

The Council has embraced a four-part programmatic approach based on efforts in other states which have proven effective in the prevention of vehicle theft.

#### PREVENTION / EDUCATION

Statistics estimate that in three out of four cases of auto theft, owners left the doors unlocked. In one out of four cases, keys were left in the ignition. Without prevention efforts and public support, law enforcement alone cannot effectively prevent vehicle thefts in Maryland.

Public education campaigns and prevention training programs can increase individual awareness of the cost of vehicle theft, provide tips for vehicle owners to prevent thefts, and demonstrate the savings that preventative measures yield. The Council encourages prevention programs that promote public awareness and provide public training in the preventative measures.

In an effort to assure maximum effectiveness and statewide coverage of a prevention campaign, the Council encourages programs covering multiple jurisdictions. Partnerships promoting vehicle theft prevention programs between local law enforcement agencies and community organizations are strongly promoted. All law enforcement grants are required to have a prevention component.

#### DETECTION AND APPREHENSION

The Council encourages detection and apprehension programs by specifically allocating funds to law enforcement agencies. Vehicle theft detection and apprehension programs include community involvement programs, detection training programs, and enhancements to information-gathering programs. Vehicle theft often transcends jurisdictional boundaries; the Council, therefore, encourages law enforcement efforts covering multiple jurisdictional boundaries. An example of this is multi-agency vehicle theft enforcement teams. Multi-jurisdictional efforts may include municipalities, counties, regions, and community organizations.

#### PROSECUTION & CONVICTION

Prosecution and conviction of automobile thieves is one of the most important means of breaking vehicle theft rings and reducing the economic incentives of vehicle theft.

In the past, the prosecution of vehicle theft cases had a relatively low priority at both local and state levels because of four factors: staffs were limited and consumed with prosecution of violent crimes, vehicle theft is a property crime as opposed to a

personal crime, victims receive insurance compensation, and vehicle theft prosecutions are complex and expensive in comparison to resultant penalties. A special prosecutor to handle vehicle theft cases through both district and circuit courts is an effective method in achieving convictions.

The Council encourages prosecution and judicial programs designed to assist with the prosecution of persons charged with vehicle theft offenses, as well as efforts to implement legislative changes that

facilitate the prosecution of vehicle thieves and forfeiture of their property.

#### JUVENILE INTERVENTION

Because of the large percentage of juveniles involved in auto theft, the Council dedicates a percentage of funds to juvenile service agencies to develop programmatic initiatives with specific vehicle theft offense components. The funds will also be used to improve data collection to enhance research and analysis capabilities of juveniles involved in vehicle theft and related offenses. Schools may be an effective setting for presenting special vehicle theft programs to large groups of young people. Current study data indicates a need to influence juveniles in both middle and high schools about the consequences of vehicle theft.

---

***The Council encourages prevention programs that promote public awareness and provide public training in the preventative measures.***

### THE COUNCIL'S IMPACT ON PREVENTING VEHICLE THEFT

Since its inception, the Maryland Vehicle Theft Prevention Council has been effective in its efforts to combat vehicle theft throughout the State of Maryland. The combination of public awareness, prevention, and education has played an integral role in the decline in vehicle theft. By continuing to fund the council, this multi-faceted approach can continue to be applied and provide untold benefits towards the continued reduction of auto theft statewide.

#### ANTI-CAR THEFT COMMITTEE

In 1997, the Council organized the Maryland Anti-Car Theft Committee (ACT) as a public/private partnership between the Council, automobile insurance carriers, and other vehicle related organizations.

The ACT Committee was formally incorporated in Maryland as a 501(c3) nonprofit tax exempt organization. The primary function of the ACT Committee is to organize and fund various public awareness/education/prevention programs throughout Maryland, thereby enhancing and broadening the base of the Council's efforts. The Council continues to partnership with the ACT Committee.

In 2000, ACT expanded its area of responsibility to include the District of Columbia, becoming the MD-DC ACT Committee. The MD-DC ACT Committee assists the Maryland Vehicle Theft Prevention Council in promoting public awareness campaigns around the state.

#### "WATCH YOUR CAR"

In October 1997, Maryland was awarded a Department of Justice, Bureau of Justice Assistance grant to launch the national "Watch Your Car" program. Maryland was one of the first seven states to be at the forefront of this national vehicle theft prevention program. The "Watch Your Car" initiative allows motor vehicle owners to voluntarily display a reflective decal on their vehicles to alert police that the vehicle is not normally driven between the hours of 1 a.m. and 5 a.m. If the vehicle is observed being operated during these hours, the owner has consented to having the vehicle stopped by police anywhere in the United States. Police can then ensure that the vehicle is not stolen.

This program is totally voluntary and at no cost to the participants. Similar decal programs throughout the country have proven successful. This program was officially implemented in August of 1998. Currently, there are approximately 40,000 Maryland motorists registered in the program with law enforcement agencies participating statewide. In 2000, the Council applied for, and received, "Watch Your Car" Supplemental Funding of \$240,000.00. This continued the program through 2003. The Council has since assumed funding responsibilities to continue this valuable program.

### Watch Your Car Program

The KEY to preventing vehicle theft is in your hands.

Lock your car  
Take the key  
Use an anti-theft device

**Participate in the Maryland "Watch Your Car" Program**

**Make your Car Tough to Steal**

The "WATCH YOUR CAR" program is administered by the Maryland Vehicle Theft Prevention Council (MVTPC) and is provided as a public service, free of charge, to owners of vehicles registered in the State of Maryland. It is a voluntary vehicle registration program designed to deter auto theft and assist in the apprehension of auto thieves.

**How it works:** The owner(s) sign an application form stating their vehicle is not normally used between the hours of 1:00am and 5:00am which gives permission for a police officer to stop the car between the hours of 1:00am and 5:00am to verify that the driver is actually the owner of the vehicle or an authorized driver, designated by the owner. Once registered, the vehicle owner will receive 2 window decals to be placed on the front and back windows of the vehicle. Vehicle owners wishing to participate in the program can click on the link below to download the application form and submit the completed form to the Maryland Vehicle Theft Prevention Council.

## Vehicle Theft By The Numbers

**751,771** The number of cars stolen in the United States in 2018.

**12,146** The number of cars stolen in the State of Maryland in 2018.

**95%** The percentage of stolen vehicles that had no apparent anti-theft devices.

**66%** The percentage of vehicle thefts that occur at night.

**60%** The percentage of stolen vehicles that were unlocked.

**50%** The percentage of stolen vehicles that had the keys inside the vehicle.

**22%** The percentage of stolen vehicles that are not recovered.

**45** The number of seconds between each auto theft in the United States.

**40** The number of minutes between each auto theft in the State of Maryland.

## VEHICLE THEFT FACTS AND TIPS

### Did you know?

- ◆ In 2018, there were 12,146 motor vehicles stolen in Maryland.
- ◆ A vehicle theft occurs every 43 minutes in Maryland.
- ◆ In approximately 50 percent of the vehicles stolen, keys were left in the vehicles.
- ◆ It is estimated that 60 percent of the vehicles stolen were not locked.
- ◆ 2,100 individuals were arrested for vehicle theft in 2018.
- ◆ Juveniles represented 25.9% of the arrests for vehicle theft in Maryland.
- ◆ Approximately 25 to 40 percent of the cost of comprehensive auto insurance is due to auto theft.
- ◆ National surveys reveal that 33% of drivers left their car while it was running.
- ◆ Driver error is to blame in 40 to 50 percent of vehicle thefts (keys in ignition, key fobs left in vehicles, windows down, unlocked doors).

### Protect yourself and your car!

- ◆ You hold the key! Lock your car and take the key.
- ◆ Use anti-theft devices such as alarms, kill switches, steering wheel and brake locking devices, or recovery systems.
- ◆ Park in well-lit and heavily traveled areas.
- ◆ Park with wheels turned toward the curb.
- ◆ Lock vehicle doors upon entering.
- ◆ Do not hide spare keys in or under the vehicle, they can be easily found.
- ◆ Never leave a vehicle title, driver's license, or any type of owner identification in the glove box.
- ◆ Place valuables out of sight; for SUV's utilize a cargo cover.

**Lock Your Car, Take Your Keys/Fobs,  
Hide Your Valuables!**

### CSM Digital Media Students Take Grand Prize, Earn Accolades for Anti-Theft Projects

#### *Maryland State Police Select Most Effective Public Service Announcements in Annual Contest*

Nine College of Southern Maryland (CSM) digital media students were honored this spring for exhibiting award-winning creativity in the production of public service announcements (PSAs) aimed at helping to reduce vehicle thefts.

In an annual contest that allows students to show off their skills towards a real-world project, participants from both CSM and Towson University were invited to enter the Maryland State Police (MSP) 2019 Maryland Vehicle Theft Prevention Public Service Announcement Competition last semester. Students then worked individually, and in teams, to create and submit 30-second PSAs that

warn residents about car theft and/or the theft of items left in cars. Awards were given in two categories — video and audio.

“Our digital media production students did extremely well in the competition and I am proud of them,” said Professor Olaniyi Areke, who is in his fourth year as program coordinator of digital media production at CSM. “These students are creative, focused, hardworking, determined, dedicated and persistent in getting their projects done in a grand way.”

CSM students submitted 12 videos and five audio PSAs in this year’s competition. The nine who were honored for their work included Anthony Aceto, of Waldorf; Jacob Buchanan, of Mechanicsville; Gabriel Chandler, of Callaway; Elijah Green, of Prince Frederick; Tieler King, of White Plains; Jayne and Sarah Kissel, of La Plata; Cole Pepin, of White Plains; and Lois Stephenson, of Leonardtown.

The team of Pepin and Green took grand prize honors in the video category. Also placing in the (continued)

College of Southern Maryland - Winners and Winnings:  
Top Row (left to right): Gabriel Chandler; Jacob Buchanan; Jayne and Sarah Kissel; Anthony Aceto.  
Bottom Row left to right): Elijah Green and Lois Stephenson

video category were Buchanan, the team of Chandler and King and the mother/daughter team of Jayne and Sarah Kissel. Audio winners were Aceto, Buchanan and Stephenson.

Winning students earned financial awards and valuable professional recognition.

This was the second round of recognition for Green who also won a grand prize in the audio category in the 2017 contest, making him the first CSM student to win grand prizes in both audio and video categories.

Buchanan also set a record for CSM in the contest, winning three awards in two years. He was honored in both the audio and video categories this year, and in the 2018 contest, Buchanan was the video grand prize winner.

"I'm pretty proud that my work was chosen to be honored by the MSP," Buchanan said. "In all honesty, I perpetually had my fingers crossed for a while, waiting for the results of who placed or not. And I was ecstatic to find out that I did."

King said she learned a lot from her participation in the contest with fellow student Chandler. "We worked well together and had similar visions." King said of their partnership. "Being in a well-functioning team meant a lot to me. It was also interesting to gain a better understanding of the amount of effort that goes into working on a project that has a set duration that must be met. It truly makes you appreciate the production value of commercials, which most people tend to ignore."

Stephenson said she entered the contest even though Areke's class was only her second film course. "I joined the contest for the practice ... just to stretch my wings – and I love a challenge," she shared.

The mother/daughter team of Jayne and Sarah Kissel had been looking for a creative class to take together at CSM, and chose Video Field Production.

"The PSA project was great because it allowed me to learn how to write a script, film it, and then edit the film," Jayne Kissel said. "The PSA was a valuable experience because it forced you as a student to organize your time, think about your audience, work with others, and to work within a time constraint of a 30-second video."

For her part, Sarah Kissel said the PSA project improved her teamwork skills. "I'm glad our PSA project will be used to encourage people to safely secure their vehicles before leaving them," she said. "It was fun and worth the effort to make this PSA video, I wouldn't mind doing it again."

"I would like to thank the Maryland State Police for sponsoring this award," added Jayne Kissel. "It is an important opportunity for CSM students to gain real-world experience in this field, and the award money helps with student expenses."

The Maryland State Police partners with the Maryland Vehicle Theft Prevention Council and the MD-DC Anti-Car Theft Committee (ACT) to host the annual PSA competition with CSM.

"Our partnership between law enforcement, the private sector and the College of Southern Maryland is aimed at raising the awareness of specific issues related to vehicle theft and its related crimes while continuing to reverse vehicle theft trends," said Christopher McDonold, Executive Director of the Maryland Vehicle Theft Prevention Council. "While vehicle theft is a crime of opportunity, the PSAs created by the students serve as an education for motorists about the methods to protect their vehicle and personal property to avoid becoming a victim."

The Vehicle Theft Prevention Council celebrated its 25th Anniversary this past year.

At the Northwest Citizens Patrol 38th Anniversary Dinner, it was our pleasure to recognize Ray Presley, its Founder, and Chris McDonold, its present Executive Director, for their excellent stewardship of the organization.

The NWCP wishes the Vehicle Theft Prevention Council many more years of success in being the premier organization curtailing vehicle theft in Maryland.

Northwest Citizens Patrol*

*“The community conferencing process not only provides a voice for victims of vehicle theft, but it also provides a space for accountability, where a young person has to directly face those affected by their actions. This level of accountability provides for self-examination and mitigates vehicle theft by preventing these offenders, who are better able to understand how what they do impacts everyone around them, from re-offending and committing more serious crimes. This would not be possible without support from the Vehicle Theft Prevention Council.”*

**Larell Smith-Bacon**  
Conferencing Program Director  
Restorative Response Baltimore  
(formerly the Community Conferencing Center)

*“We continue to see and experience the rise and increase of much crime. We are very fortunate, and benefit greatly from an Organization that focuses all of its energy and that it’s sole mission is to prevent auto theft. Much success in 2020.”*

**Neil Schachter**  
President, Northwest Citizens Patrol

*“IMPACT thanks the Maryland Vehicle Theft Prevention Council for their support. MVTPC funds allow us to sponsor an annual advanced Vehicle Identifiers School. Detectives from multiple jurisdictions along with National Insurance Crime Bureau Special Agents work together to catalogue valuable information on new model year cars and trucks at the Washington DC New car show. This information is used in the fight against the growing trends of Vehicle Identification Number (VIN) switching, vehicle cloning and salvage fraud, now employed by organized crime to steal high dollar vehicles and sell those vehicles to the unsuspecting public. These theft techniques are part of the ‘new face of auto theft’ that challenges the law enforcement and insurance communities. This type of training is not provided in the Mid-Atlantic region by any other group or school.”*

# GRANT RECIPIENTS

Summary of Grant Recipients for  
Fiscal Year 2020

## Law Enforcement

### Annapolis Police Department Auto Larceny Education Reduces Thefts

A highly motivated public education and awareness program directed at preventing and deterring vehicle theft and theft from vehicles.

**FY 2020 Award: \$21,000**

### Anne Arundel County Police Department

#### Vehicle Theft Investigation, Prevention, Education, and Recovery (VIPER)

A comprehensive vehicle theft investigation, prevention, education, and recovery project to effectively reduce the serious vehicle theft activity in the county.

**FY 2020 Award: \$60,000**

### Baltimore County Police Department (RATT)

**Cracking Down on Auto Theft**  
Provides vehicle theft prevention and educational training, identifies repeat offenders, enhances prosecution, and establishes a multi-jurisdictional vehicle theft investigative task force with the Baltimore City Police Department and the Maryland State Police.

**FY 2020 Award: \$380,000**

**Award includes both Auto Theft Reduction through Crime Analysis and Cracking Down on Auto Theft programs.**

### Charles County Sheriff's Office Vehicle Theft Project

Provides for a dedicated vehicle theft investigator, vehicle theft investigative training, and aggressive community prevention and education program.

**FY 2020 Award: \$30,000**

### Department of Maryland State Police

#### Theft Reduction, Enforcement & Support

Provision of vehicle theft investigation and technical assistance to local law enforcement agencies, statewide vehicle theft enforcement program.

**FY 2020 Award: \$140,000**

### Harford County Sheriff's Office Theft Reduction, Enforcement & Support

A comprehensive vehicle theft investigation, prevention, education, and recovery project to effectively reduce the serious vehicle theft activity in the county.

**FY 2020 Award: \$20,000**

### Howard County Department of Police

#### Howard County Interagency Collaboration on Vehicle Theft Reduction

The formation of an interagency team dedicated to vehicle theft reduction by maximizing prevention, investigation, and prosecution efforts.

**FY 2020 Award: \$65,000**

### Maryland Motor Vehicle Administration (MVA)

#### Stolen & Uninsured Vehicle Initiative

Target vehicle theft through the use of technology and relationships with established auto theft units.

**FY 2020 Award: \$96,000**

### Montgomery County Police Department

#### Vehicle Theft Enforcement and Prevention Project

Implements a task-force approach to vehicle theft by creating a centralized vehicle theft investigative unit, encouraging prevention through public education, and proving crime analysis. This grant also provides for a Montgomery County Prosecutor's Office to directly assist police efforts.

**FY 2020 Award: \$160,000**

### Prince George's County Police Department - WAVE Team

#### Vehicle Theft Prevention Initiative

Comprehensive program directed at law enforcement, support and participation in the Washington Area Vehicle Enforcement Team; Analyze stolen and recovered vehicle theft data, public information campaign directed at empowering the role of citizens through "Lockit & Pocket", a Community Prevention Program and enhanced cooperation with prosecutor.

**FY 2020 Award: \$380,000**

# APPENDIX D

# GRANT RECIPIENTS

Summary of Grant Recipients for  
Fiscal Year 2020

## Prosecution

### Baltimore City State's Attorney's Office

#### ACARS Conquering Auto Theft Recidivism Soon

Computer tracking and analysis of case prosecution of juvenile vehicle theft offenders and direct support to police efforts.

**FY 2020 Award: \$51,000**

### Baltimore County State's Attorney's Office

#### A Comprehensive Enforcement and Prosecution Project

Intensive prosecution of repeat vehicle theft offenders and direct support to police efforts.

**FY 2020 Award: \$120,000**

### Prince George's County State's Attorney's Office

#### Aggressive Auto Theft Prosecution: Applying Resources and Getting Results

Program directed at aggressive prosecution to improve conviction rates for adults and juveniles charged with vehicle theft and to get higher sentencing for convicted offenders.

**FY 2020 Award: \$90,000**

## Juvenile

### Community Conferencing Center

#### Building Community Conferencing as an Effective Intervention for Juvenile Theft

Unique community justice intervention that includes victims, offenders, and their respective supporters in deciding how to best resolve the incident. Project targets young people who steal cars for the first time. Community conferencing helps offenders to understand the impact of their behavior which has shown to decrease the likelihood that it will happen again.

**FY 2020 Award: \$30,000**

## Community Prevention

### Maryland Community Crime Prevention Institute

#### Vehicle Theft Prevention Public Awareness Support

Supports the Vehicle Theft Prevention Council's public awareness campaign through the operation of the toll free hotline (1-800-96-THEFT) and distribution of brochures and other educational materials.

**FY 2020 Award: \$22,000**

### Northwest Citizens Patrol

#### Vehicle Theft Prevention Project

Promotes education and crime prevention by focusing on both offenders and vehicle owners. Tactics include educating vehicle owners through marketing and community seminars and deterring offenders through aggressive cooperation with prosecutors and delaying parole of offenders.

**FY 2020 Award: \$30,000**

### Olde Mill Foundation Auto Theft/Prevention/ Education and Information Initiative

Vehicle theft prevention program at the grassroots community level. Coordination with community police officers and juvenile intervention prior to the offense.

**FY 2020 Award: \$25,000**

## Public Awareness

### Vehicle Theft Prevention Council

#### Public Awareness Campaign

Promotes action to lower rates of auto theft statewide by establishing the best possible media themes and methods to increase public awareness and to educate citizens in vehicle theft prevention measures.

**FY 2020 Award: \$49,000**

## Miscellaneous

### Industry Merged with Police Against Car Theft (IMPACT)

Provides Basic, Advanced and Certification Training for Law Enforcement and Auto Insurance Special Investigation Units

**FY 2020 Award: \$40,000**

### Washington College

Collect, analyze, and map data to better understand and develop strategies to reduce vehicle theft in Maryland.

**FY 2020 Award: \$60,000**

## FACT:

*Materials like these brochures have helped the Maryland Vehicle Theft Prevention Council raise awareness throughout the state.*

### Lock Out Car Theft

The Key to Preventing Theft Is In **Your** Hands

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

**"YOU HOLD THE KEY"**

Larry Hogan, Governor  
Boyd K. Rutherford, Lt. Governor

[MDAutoTheft.org](http://MDAutoTheft.org)

### Carjacking

...you can lose **more** than just your vehicle.

### Lock Out Car Theft!

MARYLAND VEHICLE THEFT PREVENTION COUNCIL

**"YOU HOLD THE KEY"**

Larry Hogan, Governor  
Boyd K. Rutherford, Lt. Governor

[MDAutoTheft.org](http://MDAutoTheft.org)

The key to preventing  
vehicle theft *is* in  
*your* hands.

Lock your car.  
Take the key.  
Use an anti-theft device.  
Participate in the Maryland  
“Watch Your Car” Program.
